(e) *Designated representative.* The Director of Distribution, War Food Administration, or any officer or employee of the War Food Administration to whom the Director of Distribution has heretofore lawfully delegated, or to whom he may hereafter lawfully delegate the authority to act in his stead.

* * * * *

(g) *Department.* War Food Administration, United States Department of Agriculture.

(h) *Bureau.* Office of Distribution, War Food Administration.

§ 101.16 *Form.* * * *

(b) Every negotiable receipt, issued for cotton stored in a licensed warehouse shall be effective until surrendered for delivery of the cotton, and every nonnegotiable receipt shall be effective until surrendered for delivery of the cotton or until all cotton covered by the receipt has been delivered in response to proper delivery orders of the person rightfully entitled to the cotton: *Provided,* That nothing herein contained shall prohibit a warehouseman from legally selling the cotton when his accrued storage and other charges approach the current market value of the cotton (Reg. 4, Sec. 1, Par. 2).

§ 101.21 *Return of receipts before delivery of cotton.* Except as permitted by law or by these regulations, a warehouseman shall not deliver cotton for which he has issued a negotiable receipt under the act until such receipt has been returned to him and canceled; and shall not deliver cotton for which he has issued a nonnegotiable receipt until such receipt has been returned to him or he has obtained from the person lawfully entitled to such delivery or his authorized agent, a written delivery order, properly signed, specifying by bale or tag number each bale to be delivered from any receipt or receipts. Before delivering, or upon delivery of, all the cotton covered by a nonnegotiable warehouse receipt, the warehouseman may require the surrender of the receipt (Reg. 4, Sec. 6).

§ 101.29 *Warehouse charges.* A warehouseman shall not make any unreasonable or exorbitant charge for services rendered. Before a license to conduct a warehouse is granted under the act, the warehouseman shall file with the Department a copy of his rules, if any, and a schedule of the charges to be made by him if licensed. A licensed warehouseman may alter his rate of charges for storage and other services effective at the beginning of any new crop year, and such change shall apply during the present war emergency to all cotton, including cotton then in storage: *Provided, however,* That the Secretary, or his designated representative, may fix the effective date of such change for warehousemen in each state or group of states. Before making any change in such rules or schedule of charges, the warehouseman shall file with the Department a statement showing the proposed change and the reasons therefore: *Provided,* That such change or changes shall not become effective until the Department has granted approval to the change. At the close of each cotton season or upon the expiration of one year from the date of issuance of a receipt the warehouseman may demand payment of all accrued storage and other charges. Each licensed warehouseman shall keep exposed conspicuously in the place prescribed by § 101.6 (Reg. 2, Sec. 4), and at such other place, accessible to the public, as the Secretary or his designated representative may from time to time designate, a copy of his current rules and schedule of charges (Reg. 5, Sec. 7).

§ 101.32 *Arrangement of stored cotton.* (a) Each warehouseman shall store each bale of cotton for which a receipt under the Act has been issued so that the tag thereon, required by § 101.31 (Reg. 5, Sec. 9), is visible and readily accessible, except as provided in § 101.32 (b), and shall arrange all other cotton in his licensed warehouse so as to permit an accurate check thereof.

(b) If any licensed warehouseman is tendered for storage cotton of same grade and staple and in such quantity by any one depositor that efficiency of operation dictates that such cotton should be stored in lots without reference to visibility of all tags on all bales within any lot, the warehouseman may store such cotton of same grade and staple belonging to the same depositor in lots of not less than 25 bales nor more than 200 bales, *Provided, however,* That each bale entering into the lot must bear an individual identification tag, and each lot must be so stored that the number of bales within the lot may be accurately determined.

An identification card or tag shall be attached by the warehouseman to each lot of cotton which shall show the lot number and the number of bales in the lot. The warehouseman shall also maintain an office record showing bale or tag number of each bale in the lot and the location of the lot in the warehouse. Each lot shall be so arranged as to be readily distinguishable from each and every other lot. When requested by a proper representative of the Department of Agriculture engaged in making an examination of the warehouse, the warehouseman shall tear or break down at his own expense such stacks or lots of cotton as the examiner deems necessary to a proper examination. Before any warehouseman undertakes to store in accordance with this section he shall submit a statement setting forth (1) his reasons for desiring to avail himself of this section and (2) the plan of storage he proposes to follow, and he shall secure prior permission from the Secretary or his designated representative to practice such method of storage. (Reg. 5, Sec. 10.)

The foregoing amendments shall become effective at 12:01 a. m. e. w. t. June 12, 1944.

Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q.—Q. 59, Amdt. 1]

PART 319—FOREIGN QUARANTINE NOTICES

FLAG SMUT QUARANTINE

Because of a temporary national shortage of feedstuffs and rail transportation, increased importations of feedstuffs have become necessary. Australia being one of the immediate sources of supply for which water transportation is available it is proposed as an emergency measure to modify the existing prohibition against the importation of wheat from Australia contained in 7 CFR 319.59 (Flag Smut

Quarantine, No. 59), by permitting the importation of this product by an agency of the Federal Government, under conditions prescribed for the purpose of preventing the danger of flag smut introduction into important wheat areas. Such importation will be limited to six boatloads and to a period not to extend beyond November 30, 1944; the imported wheat will be obtained in southern Australia where, according to available information, flag smut has not been reported since 1941; and entry and distribution will be allowed for feed purposes only, and confined within the area in southern California where wheat is not an important crop.

Pursuant to the authority conferred on the Secretary of Agriculture by the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 160), the subpart entitled "Flag Smut" of Part 319, Chapter III, Title 7, of the Code of Federal Regulations (§ 319.59; B. E. P. Q—Q. 59) is hereby amended, effective immediately, by adding, at the end of said subpart the following:

Provided, That this prohibition shall not apply to a quantity of wheat, not to exceed six boatloads, to be imported from southern Australia, through the port of Los Angeles, Calif., by an agency of the Federal Government on or before November 30, 1944, at a rate not exceeding two boatloads per month, for milling at Los Angeles, Calif., and utilization thereafter for feed purposes within the are of the State of California south of and including the counties of Santa Barbara, Ventura, Los Angeles, and a line extended eastward through San Bernardino County from the northern borders of Ventura and Los Angeles Counties. Such importation, milling, distribution, and utilization of this Australian wheat shall be carried out in compliance with the regulations promulgated supplemental to this quarantine.

REGULATIONS GOVERNING THE ENTRY OF AUSTRALIAN WHEAT INTO SOUTHERN CALIFORNIA

§ 319.59–1 *Applications for and issuance of permits.* Upon receipt of an application, giving the name and address of importer, country and locality of origin, United States port of entry, approximate quantity to be imported and approximate date of arrival, a permit will be issued authorizing the importation of Australian wheat through the port of Los Angeles, Calif., during the period from the effective date hereof until November 30, 1944. Permits will be issued subject to the restrictions and requirements set forth in §§ 319.59–2 to 319.59–7.

§ 319.59–2 *Notice of arrival.* A notice of arrival shall be submitted with each shipment entered at said port on forms provided for the purpose (Form EQ–368).

§ 319.59–3 *Inspection and treatment.* Each shipment shall be subject to such inspection as may be necessary to determine its freedom from injurious insects and plant diseases, and to such treatment as may be necessary in connection with pests found present.

§ 319.59–4 *Safeguards governing unloading and handling at dock.* Unloading and handling at the dock shall be under the supervision of an inspector of the Bureau of Entomology and Plant Quarantine, and shall be subject to such safeguard and cleanliness requirements as he may prescribe.

§ 319.59–5 *Wheat may be ground in approved mills only.* Wheat shipments shall be moved from the dock only to specified, approved mills within the limits of the port for grinding. Movement from dock to mill shall be under the supervision of an inspector of the Bureau of Entomology and Plant Quarantine and shall be carried out in such manner and under such safeguards as he may require.

§ 319.59–6 *Identity of product to be maintained.* The wheat shall be ground to such state of fineness as will fit it for feeding purposes, and the identity of the product shall be maintained after grinding by marking, certification, or otherwise as the inspector may require.

§ 319.59–7 *Distribution for consumption safeguarded by permit.* Distribution from the mill into consumption within the specified area shall be made under permit issued under such conditions as will insure that the product does not leave the specified consumption area.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-562]

JACKSON UPHOLSTERY CO., INC.

Jackson Upholstery Co., Inc., a New York corporation located at 18 West 18th Street, New York, New York, is engaged in the business of manufacturing furniture. During the period beginning on or about the middle of November, 1942, and ending January 10, 1943, the corporation processed, fabricated, worked on and assembled 339 pieces of new wood upholstered furniture containing steel springs and coils in violation of General Limitation Order L-135. Since the respondent corporation was familiar with the provisions of General Limitation Order L-135, its actions must be deemed to constitute wilful violations of that order.

These violations of General Limitation Order L-135 have hampered and impeded the war effort of the United States by diverting critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.602 *Suspension Order No. S-562.* (a) Jackson Upholstery Co., Inc., its successors or assigns, during the three months period beginning July 1, 1944, and ending September 30, 1944, shall not use in the production of upholstered furniture more metal upholstery springs than five per cent by weight of the total weight of metal upholstery springs used by it during the year 1941; and during the three months period beginning October 1, 1944, and ending December 31, 1944, shall not use in the production of upholstered furniture more metal upholstery springs than five per cent by weight of the total weight of metal upholstery springs used by it during the year 1941.

(b) Nothing contained in this order shall be deemed to relieve Jackson Upholstery Co., Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 1, 1944, and shall expire on December 31, 1944.

Issued this 2d day of June 1944.

Recording Secretary.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Limitation Order L-292, Quota Schedule I, as Amended June 10, 1944]

PRODUCTION QUOTAS FOR DAIRY MACHINERY AND EQUIPMENT

§ 1226.78 *Production quotas for dairy machinery and equipment*—(a) *The purpose of this schedule.* The purpose of this schedule is to fix the production quotas for dairy machinery and equipment, for the year beginning October 1, 1943 and ending September 30, 1944, inclusive. The quotas described in this schedule shall take the place of the quota provisions of paragraph (f) of Order L-292 with respect to those items.

(b) *Definitions.* (1) "Base period use" means the annual average tonnage of controlled materials used to complete items of dairy machinery and equipment during the years 1939, 1940 and 1941.

(2) "Controlled material" means controlled material as defined in CMP Regulation 1.

(c) *Production quotas.* During the year beginning October 1, 1943 and ending September 30, 1944, no manufacturer shall use more controlled materials to fabricate or assemble dairy machinery and equipment in any class than the quota percentage of his base period use for each class of machinery and equipment as set forth in the table below.

PRODUCTION QUOTAS

The first column describes each class of machinery covered by this schedule.

The second column describes the various types of machinery and equipment included in each class of machinery.

The third column assigns a code number to each type of machinery and equipment.

The fourth column shows the quota percentage that each manufacturer is allowed. Where an asterisk appears instead of a quota percentage, a manufacturer may build the item opposite the asterisk only upon receipt of an approved order as defined in paragraph (a) (5) of Order L-292. But a manufacturer of such an item may build a minimum production run of the item upon written authorization from the War Production Board. Request for authorization may be made by filing a letter in triplicate with the War Production Board showing the quantity in a minimum production run of the item and containing substantial evidence that the manufacturer will obtain approved orders in that quantity by October 1, 1944. The War Production Board may grant the authorization upon such conditions, if any, as it may prescribe.

For example, if a manufacturer used 1,000 tons for the Group A items and 100 tons for the Group B items his quota for all butter, cheese and fluid milk plant equipment would be 1,300 tons. This quota may be used for any product in either group or divided amongst the products in both groups in any way that the manufacturer wishes.

(d) *Exceptions.* The quota provisions of paragraph (c) above do not restrict the fabrication or assembly of dairy machinery or equipment to fill specific orders actually received by a manufacturer for export outside the United States and Canada, or for direct use by the Army, Navy, Maritime Commission or War Shipping Administration.

(e) *Increase, decrease and transfer of quotas.* The War Production Board may, by specific written directions issued to any manufacturer or class of manufacturers, increase or decrease any quota established by this schedule and may transfer any portions of a quota between manufacturers, taking into consideration the amount of materials to be used, the need for particular items at the time required, the labor and transportation situation in the manufacturing areas involved, the inability of any manufacturer to manufacture his quota, and such other factors as may be relevant.

(e) *Increase, decrease and transfer of quotas.* The War Production Board may, by specific written directions, issued to any manufacturer or class of manufacturers, increase or decrease any quota established on this schedule and may transfer any portions of the quota between manufacturers, taking into con-

sideration the amount of materials to be used, the need for particular items at the time required, the labor and transportation situation in the manufacturing areas involved, the inability of any manufacturer to manufacture his quota, and such other factors as may be relevant.

(f) *Applicability of Limitation Order L–292.* Except as otherwise indicated herein, this schedule is subject to all applicable provisions of Limitation Order L–292, as amended from time to time.

PART 3270—CONTAINERS

[Limitation Order L–103, as Amended June 10, 1944]

GLASS CONTAINER AND CLOSURE SIMPLIFICATION

§ 3270.46 *Limitation Order L–103*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Glass container" means any new machine-made bottle, jar, or tumbler which is made of glass and which is suitable for packing any product.

(2) "Closure" means any sealing or covering device affixed or to be affixed to a glass container for the purpose of retaining the contents within the container.

(3) "Finish" of a glass container means the configuration of the neck or opening which serves to engage specific parts of the closure in order to affix it to the glass container.

(4) "Design" of a glass container means the particular shape, weight, size, capacity, and contour of the body of such container (other than the finish), and shall include any lettering or decoration molded thereon, except the container manufacturers' identification marks.

(5) A "design in existence" means a design for which one or more molds have been cast and is further limited to the exact size and capacity of container produced therefrom.

(6) Any specification which refers to or includes the letters "G. C. A." means a specification (including the tolerances recognized with respect to such specification) issued by the Glass Container Association of America and in effect on May 11, 1942.

(7) "Exhibit" refers to the particular specifications set forth opposite an exhibit number (e. g. 10–40; 10–75; 50–23, etc.) as applied to the shape or contour appearing on the drawing, attached to this order, in connection with which such exhibit is listed. Any applicable footnotes appearing on said drawing shall be deemed to be incorporated in such specifications.

(c) *Issuance of schedules of simplification of lines.* The War Production Board may from time to time issue schedules establishing simplification practices with respect to the designs and/or finishes of glass containers for specific products. From and after the date of issuance of any such schedule no such containers shall be manufactured or used contrary to the provisions of such schedule: *Provided, however,* That:

(1) Subject to the provisions of subparagraph (2) of this paragraph (c), nothing in this order or any schedule hereof shall prevent the manufacture, sale, delivery or use, for the packaging of any product, of any glass container which differs from any standard glass container established for such product by any schedule solely by reason of:

(i) The location of indented or other label space;

(ii) The degree of curvature of the shoulder and heel of the container;

(iii) The amount and location of any lettering which indicates capacity only;

(iv) A difference in height or weight when such difference does not exceed 5 percent of the height or weight shown for the applicable standard glass container;

(v) The existence or location of stippling or fluting.

(2) No person shall manufacture, sell, deliver or use any glass container pursuant to the provisions of subparagraph (1) of this paragraph (c) unless

(i) Such glass container is manufactured within nine months after the date as of which the product for which it is to be used was first referred to in any schedule of this order. (For reference purposes the "cut off" date applicable to glass containers for each such product in accordance with this paragraph (c) (2) (i) is listed in Table I, annexed hereto.)

(ii) Such glass container is manufactured from a mold which was actually in existence prior to the date of issuance of any applicable schedule; and

(iii) The design of such glass container has been submitted to the War Production Board, Washington, D. C., Ref. L–103, and approved as within the exemption provided by subparagraph (1) of this paragraph (c).

(d) *Exhibits.* The exhibits listed on the drawings attached to this order shall have no application except as they are specifically referred to in this order or are established as standard glass containers by the provisions of any schedule issued pursuant to paragraph (c) hereof.

(e) *Freezing of all glass container designs not established as standards pursuant to any schedule of this order.* No person shall manufacture a glass container except:

(1) Where the design of such container was in existence on May 11, 1942; or, failing this, where any variations from a design then in existence have been effected by alterations of molds in existence on or before May 11, 1942.

(2) Where the design of such container corresponds to any exhibit attached to this order.

(3) Where the design of such container has been submitted by any person to the War Production Board, Washington 25, D. C., Ref. L–103, and approved under one of the following conditions:

(i) When no suitable glass container exists for packing a product not previously packed in glass;

(ii) When it is necessary to design a special glass container in order that it can be used on an existing filling or packing line.

(4) Nothing in subparagraphs (1), (2) or (3) of this paragraph (e) shall be deemed to permit the manufacture or use of glass containers contrary to the provisions of any schedule issued pursuant to paragraph (c) of this order.

(5) Nothing in this paragraph (e) shall prevent the manufacture of milk bottles which differ from the designs in existence on May 11, 1942, solely by reason of the following:

(i) Name of dairy.
(ii) Address of dairy.
(iii) Neck identification for use in sorting.
(iv) The word "store" or "deposit."
(v) The amount of deposit.
(vi) Single identification letter or symbol on bottom plate.
(vii) Any other lettering required by law or local ordinance.

(f) *Allowance of normal operating tolerances.* (1) Nothing in this order or any schedule hereof shall

(i) Prevent variations in the design or finish of a glass container within the limits of normal operating tolerances.

(ii) Prohibit the usual differences in glass container design when manufactured on glass container machinery of different types.

(g) *Interchangeable finishes.* (1) Unless specifically stated to the contrary in any schedule, nothing in this order or any schedule hereof shall prevent the interchange of finishes on glass containers described in an exhibit attached to this order, *Provided:*

(i) Such interchange can be effected without alteration of the specified body mold; and

(ii) The interchanged finish is no greater in diameter than that appearing on the exhibit for the body design

to which it is to be applied, or, if another type of finish is used, no larger than the corresponding size of that type of finish.

(iii) The capacity resulting from such interchange is no less than the capacity shown in the applicable exhibit.

(2) Nothing in this order or any schedule hereof shall prevent the modification of the weight, height, or capacity of a glass container described in any exhibit of this order to the minimum extent required by any interchange of finishes in accordance with the conditions of subparagraph (1) of this paragraph (g).

(h) *Extent of prohibitions against replacement of molds.* (1) Whenever any provision of this order or any schedule hereof prohibits the replacement of existing molds, such prohibition shall extend to the body mold only and shall not be deemed to prohibit the use of new neck rings nor new blank molds or other equipment necessary for use with a body mold.

(i) *Export.* Nothing in this order or any schedule hereof shall affect the manufacture, sale or delivery of glass containers intended to be shipped empty out of the forty-eight states of the United States and the District of Columbia; *Provided,* That said glass containers are of designs which were in existence on or before May 11, 1942.

(j) *Miscellaneous provisions*—(1) *Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Division, Washington 25, D. C., Ref. L-103.

Issued this 10th day of June 1944.

WAR PRODUCTION BOARD,

Recording Secretary.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–600]

DR. PEPPER BOTTLING COMPANY

Mrs. L. E. McMinn and M. H. McMinn, doing business as Dr. Pepper Bottling Company, 900 13th Street, Ashland, Kentucky, are engaged in the bottling and distribution of non-alcoholic beverages. For the period from June 1, 1942 to October 1, 1943, they used 2,384.4 gross of new closures made of restricted materials in excess of the quota permitted under the provisions of Conservation Order M–104, as then in effect. On or about August 28, 1943, they accepted delivery of 476 gross of new glass containers in excess of the quota permitted under the provisions of Limitation Order L–103–b, as then in effect. Mr. McMinn, manager of the company, was familiar with the provisions of Order M–104 and of Order L–103–b. His violation of Order M–104 resulted from gross negligence, and his violation of Order L–103–b was intentional and wilful.

As a result of these violations scarce materials have been diverted from the war effort to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.600 *Suspension Order No. S–600.* (a) Mrs. L. E. McMinn and M. H. McMinn, individually, or doing business as Dr. Pepper Bottling Company, or otherwise, their, or any of their, successors and assigns, shall during the calendar year of 1944 reduce their use of new closures made of restricted materials to be affixed to glass containers for non-alcoholic beverages by 2,384.4 gross, under the quota they would otherwise be entitled to use in 1944, as defined by Limitation Order L–103–b, unless hereafter specifically authorized in writing by the War Production Board.

(b) Mrs. L. E. McMinn and M. H. McMinn, individually, or doing business as Dr. Pepper Bottling Company, or otherwise, their, or any of their, successors and assigns, shall during the calendar year of 1944 accept delivery of not more than 50% of the quota of new glass containers for non-alcoholic beverages they would otherwise be entitled to use in 1944, as defined by Limitation Order L–103–b, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Mrs. L. E. McMinn and M. H. McMinn, individually, or doing business as Dr. Pepper Bottling Company, or otherwise, their, or any of their, successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on June 10, 1944, and shall expire on December 31, 1944.

Issued this 3d day of June 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1293—HAND TOOLS SIMPLIFICATION

[Limitation Order L–157, Schedule I, as Amended June 12, 1944]

HAND SHOVELS, SPADES, SCOOPS, TELEGRAPH SPOONS AND SNOW SHOVELS

§ 1293.2 *Schedule I to Limitation Order L–157*—(a) *Definition.* For the purposes of this schedule:

(1) "Producer" means any person who manufactures, stamps, forges, or otherwise fabricates hand shovels, spades, scoops, telegraph spoons, or snow shovels.

(b) *Simplified practices.* Pursuant to Limitation Order L–157, no producer shall manufacture any hand shovels, spades, scoops, telegraph spoons or snow shovels except the kinds named in Tables I through IV of Appendix A in conformity with the sizes, standards, types and varieties set forth in Appendix A.

(c) *Restrictions on material.* There are some specific items appearing on the Tables contained in this schedule which shall be manufactured only out of steel which is obtained from idle or excess inventories, pursuant to specific authorization from the War Production Board in accordance with Priorities Regulation 13 or CMP Regulation No. 1. In such cases, a footnote will appear in the table, referring to this paragraph, designating the specific items which are governed by it, and in only those cases does this paragraph apply. Such specific items will also be marked with an *.

(d) *Records.* Each producer shall keep and preserve in his files accurate and complete records showing his inventory of raw materials, and his production of hand shovels, spades, scoops, telegraph spoons, and snow shovels, and such records shall be kept readily available and

open to audit and inspection by duly authorized representatives of the War Production Board.

APPENDIX A

Explanations and limitations—(1) *Grades.* Alloy A, B, and C designate qualities of complete hand shovels, spades, scoops, or telegraph spoons; alloy and A designating the best quality. Alloy and A-grade tools are equipped with grade XX or SA handles; B-grade tools are equipped with grade X or SB handles. C-grade tools are equipped with No. 1 or SC handles. SA, SB, and SC grades are approximately equivalent to XX, X, and No. 1, respectively, which are the handle-grade designations commonly employed by the shovel industry. Grades SA, SB, and SC are defined in Simplified Practice Recommendation R76, Ash Handles issued by the United States Department of Commerce, National Bureau of Standards.

Nothing in this provision shall be construed as prohibiting the substitution for ash of other suitable species of wood having characteristics as nearly comparable as possible to the respective grades of ash for which they are substituted; *Provided,* That the buyer consents, and all handles other than ash be marked with the name of the species of wood of which they were made.

(2) [Deleted March 10, 1944]

(3) *Blade finishes.* Black or natural finish is obtained by dipping the blade in its natural state, except that it may be wire brushed to remove scale or rust, in lacquer, or lacquer with an asphaltum base, or other suitable protective coating; the blade shall not be pickled before being wire brushed. Full polished finish is obtained by pickling the blade, finishing on roughing and finishing polishing wheels, and dipping it in lacquer, lacquer with an asphaltum base, or other suitable protective coating. No hand shovels, spades, scoops, telegraph spoons, and snow shovels shall be finished in other than black or natural finish, except moulders' shovels and grain scoops, which may be full polished on the face only, and except shovels delivered to the Army or Navy of the United States, which shovels shall be finished in accordance with the procurement specification of the War Department or Navy Department as the case may be.

(4) *Gauges.* The gauges referred to are the steel manufacturers' standard gauges, and are subject to the manufacturers' standard tolerances. The gauge of blades is to be determined by averaging five measurements taken as specified in Federal Specification GGG-S-326.

(5) *Handle finish.* Neither long handles, nor the stems of D handles, shall be painted or otherwise finished than by sanding and waxing, except all shovels delivered to the Army or Navy of the United States, which shovels shall be painted in accordance with specifications of the War Department or the Navy Department as the case may be. Any metal used in the construction of D handles may be given a protective coating, or the entire D may be so coated, but only so far along the stem as in necessary to cover any metal used in the construction of the D.

(6) *Handle lifts.* Each kind and size of hand shovel, spade, scoop, telegraph spoon, and snow shovels shall be manufactured with only one lift, which shall be in accordance with the individual manufacturer's present standard practice, except corrugated coal shovels, which may be made with lifts of 21, 17, 14, and 11 inches, and eastern pattern scoops, which may be made with lifts of 21 and 13 inches, also in low lift of approximately 10 inches.

Issued this 12th day of June 1944.

PART 3270—CONTAINERS

[Limitation Order L-232, as Amended June 12, 1944]

WOODEN SHIPPING CONTAINERS

§ 3270.56 *Limitation Order L-232*—(a) *Definitions.* For the purposes of this order:

(1) "Wooden shipping container" means any new shipping container made wholly or partially of wood which is used for the shipment and delivery of commodities. The term does not include trunks, luggage, military locker boxes, field picking boxes, or boxes consisting of more than 50% of corrugated or solid fibre (by area). It shall not include a container, made by a container user for his own use from waste material referred to as edgings, trim and offall and excluded from the definition of lumber in Order L-335, or from second-hand lumber, *Provided,* It is not made in a box factory or wood-working establishment which sells its product to other users. Second-hand lumber is lumber which has been previously used, as in building construction, or as dunnage in bracing, blocking, or shoring, or in construction of shipping containers.

(2) "Restricted crop" means any fruit or vegetable listed in Table II of Schedule B.

General Restrictions

(b) *Restrictions*—(1) *Manufacture, sale or delivery of containers.* No person shall manufacture, sell or deliver any wooden shipping containers or parts which he knows or has reason to believe will be used or accepted in violation of any provision of this order.

(2) *Manufacture and assembly of containers.* No person shall commercially manufacture or assemble any wooden shipping container for the purposes described in the several tables of Schedule A, which does not meet the specifications contained in those tables. The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(3) *Manufacture of container parts.* No person shall commercially manufacture any wooden parts designed for any wooden shipping container described in the several tables of Schedule A which, when assembled, will not conform with the specifications of those tables. The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(4) *Coloring.* No manufacturer, dealer in, or commercial user of wooden shipping containers or parts shall dye, stain, or otherwise color containers or parts which are described in Schedule A. The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(5) *Printing.* All stamping, printing and labeling, unless otherwise required by law, shall be placed on only one outside surface of any wooden shipping container covered by the several tables of Schedule A of this order, whether it be an end, a side, bottom, top or cover. The restrictions of this paragraph (b) (5) shall not apply to barrels, drums, kegs, kits or pails or to paper, labels or markings which only:

(i) State the capacity of the container in terms of whole or fractional pints, quarts, pecks, or bushels; or

(ii) in the case of baskets and hampers are identifying markings provided for in regulations of the Secretary of Agriculture issued under the United States Standard Container Act of 1928; or

(iii) are designed for the purpose of encouraging salvage and reuse of the container, provided the label or printing does not include the name, brand, trade-mark or other reference to any person, firm, partnership or corporation.

Restrictions on Packing and Shipping Commodities Other Than Restricted Crops

(c) *Restrictions* — (1) *Commodities for which wooden shipping containers are forbidden.* No person shall commercially pack or ship in wooden shipping containers any of the commodities listed in Table I of Schedule B. This shall not, however, restrict the shipment of any commodity listed which has already been packed on the date it was included in this table or the shipment of any listed commodity in wooden shipping containers which were in the shipper's inventory or in transit to him on the date it was included in this table, but only for a period of sixty days thereafter.

(2) *Quota restriction on packing.* Packers of a commodity listed in Table II of Schedule B, other than a restricted crop, are restricted in the quantity of that commodity which they may pack in wooden shipping containers in each calendar quarter to a percentage of the quantity that they packed in wooden shipping containers in the same quarter of the base period. The percentage and base period for each commodity are shown in the table.

Restrictions on Fruits and Vegetables Listed in Table II of Schedule B (hereafter called "Restricted Crops")

(d) *Restrictions.* (1) In the case of the restricted crops listed in Table II of Schedule B, no person shall, in any calendar year, commercially pack in wooden shipping containers a greater quantity of restricted crops than the total quantity of the designated quotas of each of the restricted crops that he packed in wooden shipping containers in 1942. After determining his quota of wooden shipping containers based on what he packed in 1942, he may use these containers to pack any of the restricted crops interchangeably.

(2) The restrictions of paragraph (d) shall not become effective until July 1,

1944 (except in the case of table and juice grapes), and the quotas for the second half of 1944 shall be based on the second half of 1942.

(3) It is the policy of the War Production Board that each grower of a restricted crop be allowed to market in wooden shipping containers the quantity of restricted crops contemplated by the quotas. Under this policy every packer, so far as practicable, should use his permitted quantity of wooden containers to pack the restricted crops of each of the growers for whom he packs without prejudice to any of them, provided they are prepared to meet current prices and terms. If this policy is not observed voluntarily, the War Production Board may issue specific directives to named packers, and failure to comply with these directives will be deemed a violation.

(4) A packer may not pack a greater quantity of restricted crops grown by him in wooden shipping containers than the total of the designated quotas of restricted crops grown by him and packed in wooden shipping containers in 1942.

(5) If a grower, who did not do his own packing in 1942, wants to do his own packing, he must notify the War Production Board by letter stating the name of the person who packed for him in 1942 and the quantity of each restricted crop packed in wooden shipping containers during that year. Such notice must be filed within ten days before a grower begins his packing. He may then pack a quantity of restricted crops in wooden shipping containers permitted by the quotas set up in the table, based upon the quantity of his restricted crops which were packed in wooden shipping containers in 1942. The War Production Board may then reduce the quota of the packer who packed for him in 1942 where such action seems necessary to keep the total consumption of wooden shipping containers down to the levels contemplated by this order.

Certification

(e) *Certification for fruit and vegetable containers.* On and after July 1, 1944, no person shall sell or deliver any new wooden shipping containers for the shipment of fruits and vegetables without obtaining a certificate from the purchaser. The certificate may be either the one set forth in paragraph (v) of Order P-140 (if the purchaser is using a rating to buy his containers) or the standard certificate provided for in paragraph (d) of Priorities Regulation No. 7. In case the former is used, the purchaser shall add the following words to the certification:

The undersigned, purchaser, further certifies that he is familiar with the provisions of Order L-232 and that the containers which he is buying will not be used in violation of the terms of that order.

If he uses the standard certification, he shall add the words, "Reference L-232."

Miscellaneous

(f) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of appeal.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, Containers Division, Washington 25, D. C., Ref.: L-232.

(i) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

NOTE: The reporting requirements of paragraph (c) (3) has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 12th day of June 1944.

Recording Secretary.

PART 3292—AUTOMOTIVE VEHICLES, PARTS AND EQUIPMENT

[Limitation Order L-322, as Amended June 12, 1944]

JACKS, MECHANICAL, HYDRAULIC, AIR AND ELECTRICALLY OPERATED

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron, steel and other critical materials entering into the production of mechanical, hydraulic, air and electrically operated jacks for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3292.116 *Limitation Order L-322*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Producer" means any person engaged in the manufacture or assembly of mechanical, hydraulic, air or electrically operated jacks.

(3) "Jack" means any lifting, supporting, pulling, pushing, or bending device listed in Schedules A and B to this order.

(4) "Non-military production" means any mechanical, hydraulic, air or electrically operated jacks produced or assembled except under contracts or orders for delivery to the United States Army, Navy, Maritime Commission or the War Shipping Administration.

(5) "Capacity" means load-raising ability of the jacks, measured at the head or cap, through the entire working range from minimum to maximum height. This definition does not apply to "wheel type service or shop jacks" or "transmission jacks".

(b) *Restriction on production.* On and after November 15, 1943, no producer shall manufacture or assemble any jack except of a model, size, and capacity listed in Schedules A and B of this order.

(c) *Restriction on distribution.* Notwithstanding the provisions of Priorities Regulation Number 1, commencing with the month of November, 1943, and each month thereafter, each producer shall retain, for delivery against orders rated on Form WPB–547, a minimum of twenty-five (25) percent of the number of 3, 5, 8, 12, and 20-ton capacity hydraulic self-contained (hand operated) jacks manufactured or assembled by him in non-military production.

(1) In the event that in any month a producer's orders rated on Form WPB–547, do not equal twenty-five (25) percent of his non-military production of 3, 5, 8, 12, and 20-ton capacity hydraulic self-contained (hand operated) jacks, he may deliver the balance of his non-military production, not covered by such orders, against other orders.

(d) *Restriction on sales.* On and after November 15, 1943, no producer shall sell, transfer, or deliver, to any person any jacks listed in Schedule A or B to this order, except pursuant to orders bearing preference ratings of AA–5 or higher. The provisions of this paragraph (d) shall not apply to repair parts for mechanical, hydraulic, air or electrically operated jacks.

(e) *Exceptions to applicability of this order.* The terms and restrictions of paragraph (b) of this order shall not apply, until February 1, 1944, to jacks produced under contracts or orders for delivery to or for the account of the United States Army, Navy, Maritime Commission or the War Shipping Administration.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing Form WPB–1477 in triplicate with the Field Office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates, stating therein the information called for.

(h) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time, except as stipulated in paragraph (c).

(i) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Automotive Division, Washington 25, D. C., reference: L–322.

Issued this 12th day of June 1944.

§ 3293.41 *Supplementary Order M-18-b*—(a) *Definitions.* (1) "Primary chromium chemicals" means sodium bichromate, potassium bichromate, sodium chromate, potassium chromate, ammonium bichromate, chromic acid, and all chromium tanning compounds.

(2) "Dealer" means any person who buys primary chromium chemicals for the purpose of resale as such.

(3) "Consumer" means any person who uses primary chromium chemicals.

(b) *Delivery restrictions.* On or after October 1, 1943, no person shall deliver or accept delivery of primary chromium chemicals except as specifically authorized in writing by War Production Board.

(c) *Exception for small quantities.* Specific authorization in writing of War Production Board is not required for:

(1) Any person to accept delivery in any calendar month from all sources of an aggregate quantity of primary chromium chemicals not exceeding the following:

(i) 4,000 pounds of sodium bichromate or its equivalent in chromium tanning compounds, and

(ii) 500 pounds of each of the following: sodium chromate, potassium bichromate, potassium chromate and ammonium bichromate, and

(iii) 100 pounds of chromic acid:

Provided, however, That no person shall in any calendar month under this paragraph (c) (1) accept delivery of more than 100 pounds of any primary chromium chemical unless he has submitted to each supplier a certificate substantially in one of the following forms (whichever is appropriate), signed by an authorized official, either manually or as provided in Priorities Regulation No. 7:

Consumer's Certification

The undersigned hereby certifies to War Production Board that he is familiar with Order M-18-b and that acceptance of delivery of the chromium chemicals listed on his purchase order dated * * * will not increase (1) his total receipts during the calendar month in which delivery is requested in excess of the amounts he is entitled to receive under paragraph (c), and (2) his inventory of such chemicals in excess of one-third of his total consumption of such chemicals during the previous ninety days.

Dealer's Certification

The undersigned hereby certifies to War Production Board that he is familiar with Supplementary Order M-18-b and that acceptance of delivery of the chromium chemicals listed on the purchase order dated _____ will not increase (1) his total receipts during the calendar month in which delivery is requested in excess of the amounts he is entitled to receive under paragraph (c), and (2) his inventory of such chemicals in excess of one-sixth of his total sales of such chemicals by weight during the previous 180 days.

(2) Any person to deliver to any other person a quantity which he is entitled to accept in any one calendar month (in no case more than the quantities referred to in subdivisions (i), (ii) and (iii) of paragraph (c) (1), *Provided,* That a supplier shall not deliver more than 100 pounds of any primary chromium chemical to any person in any calendar month, unless that person has filed with him a certificate substantially in one or the other of the two forms specified in paragraph (c) (1). A supplier may not deliver primary chromium chemicals when he knows or has reason to believe the certificate furnished him is false, but in the absence of such knowledge or reason to believe, he may rely on it.

(d) *How the purchaser obtains authorization.* Each consumer who requires authorization to accept delivery of primary chromium chemicals shall file with the Chemicals Division, War Production Board, three copies of Form WPB 2945 (formerly PD-600) on or before the 10th of the month before the calendar month in which delivery is requested. The form due on September 10, 1943, however, may be filed on or before Septem 20, 1943. In addition, he must also send one copy of this form to his supplier. Each dealer who requires authorization to accept delivery will file Form WPB 2945 on or before the 15th of the month before the calendar month in which delivery is requested. The form due on September 15, 1943, however, may be filed on or before September 20, 1943. Instructions for filling out this form are set forth in Appendix A. This constitutes his request for authorization to receive delivery. One copy of Form WPB 2945 will be returned to the purchaser on which the War Production Board will indicate the quantity of primary chromium chemicals which may be accepted. This constitutes his authorization to purchase.

(e) *How the seller obtains authorization.* Each person who requires authorization to deliver primary chromium chemicals shall file three copies of Form WPB 2946 (formerly PD-601) with the Chemicals Division, War Production Board, on or before the 20th day of the month prior to the calendar month in which delivery is requested. APPENDIX A—INSTRUCTIONS FOR FILING FORM WPB 2945[1] (FORMERLY PD-600)

CONSUMERS

1. Copies may be obtained at local field offices of the War Production Board.
2. Follow the general instructions on the form except where they conflict with specific instructions contained here.
3. A separate form should be filed for (a) each consuming plant where delivery is to be made; (b) each supplier from whom the purchase will be made; (c) each primary chromium chemical requested.
4. Column 3. Do not fill in.
5. Column 4. Indicate specifically the use of the primary chromium chemical requested. Use classifications of primary chromium chemicals should be indicated as follows:
a. Tanning.
b. Pigment manufacture.
c. Chromic acid manufacture.
d. Surface treatments of metals.
e. Chromium plating.
f. Textile processing.
g. Chemical and dye manufacture.
h. Corrosion prevention in brines, etc.
i. Metal alloys.
j. Other (specify).

Opposite each use classification show the amount required for military, Lend-Lease, civilian, export, other (specify).

Thus, if 100 pounds sodium bichromate are needed for tanning leather of which 50 per cent is for the Army and 50 per cent for civilian needs, the use classification would be "tanning—50 per cent military, 50 per cent civilian." "Military" means that the particular primary chromium chemicals are to be incorporated into products to be delivered to the Army, Navy, Coast Guard or Maritime Commission.

6. Table IV. (Back page) Columns 20, 21, 22. Do not fill in.

DEALERS

7. Form WPB 2945 should be filed for their requirements of primary chromium chemicals. Indicate the total amount needed for ultimate delivery to consumers who have filed Form WPB 2945. Dealer should also show the total amount of each chromium chemical requested by him for ultimate delivery to consumers under the "Small order exception" provision of this Order M-18-b as well as the amount requested by them for inventory purposes. Thus the dealer should break down his request for each primary chromium chemical which he needs into three separate groups. No break down by use classification is required. In addition to the filing of this Form WPB 2945, the dealer is also obliged to file Form WPB 2946. (See instructions below).

8. Foreign shipments other than Lend-Lease: Form WPB 2945 may be submitted by the exporter on behalf of the foreign purchaser. The form should show the country of destination, the proposed use, and name and location of foreign purchaser.

APPENDIX B—INSTRUCTIONS FOR FILING FORM WPB-2946 (FORMERLY PD-601)

SUPPLIERS

1. Copies may be obtained at local field offices of War Production Board.
2. Suppliers should file separate forms for each plant or warehouse from which deliveries are to be made. It is not necessary to file a separate form for each primary chromium chemical. However, the particular primary chromium chemical scheduled for delivery to customers should be designated in Column 3.
3. Follow general instructions on form except where they conflict with the specific instructions contained herein.
4. Show the total amount of each primary chromium chemical scheduled for shipment in exempted quantities.

§ 3293.1026 *Schedule 26 to General Allocation Order M-300*—(a) *Definitions.* (1) "Acetic acid" means acetic acid (ethanoic acid) of any grade and from whatever source derived, including recovered acetic acid. The term does not include acetic acid recirculated as such within a manufacturing process nor does it include acetic acid of less than 12 per cent concentration (vinegar) produced at plants at which there are no facilities for further chemical conversion.

(2) "Recovered acetic acid" means that acid which is removed from a manufacturing process for resale, conversion into acetic anhydride, or use in another manufacturing process in the same plant or separate plants. The term does not include acetic acid which is recirculated as such within the same manufacturing process.

(3) "Acetic anhydride" means acetic anhydride (ethanoic anhydride) of any grade and from whatever source derived.

(4) "Acetaldehyde" means acetaldehyde (acetic aldehyde or ethyl aldehyde) of any grade and from whatever source derived.

(b) *General provisions.* Acetic acid, acetic anhydride and acetaldehyde are subject to the provisions of General Allocation Order M-300, as Appendix C materials. The initial allocation date for acetic anhydride is November 1, 1942, and September 1, 1943 for acetic acid and acetaldehyde, the respective dates when those materials became subject to Order M-243 (revoked). The allocation period is the calendar month. The small order exemption per person per month for each of the chemicals is as follows:

Acetic acid_____ 2250 pounds (100% basis).
Acetic anhydride_ 1920 pounds.
Acetaldehyde____ 1950 pounds.

(c) *Special provisions.* (1) Use, delivery and acceptance of delivery of these materials prior to July 1, 1944, will be authorized on the basis of applications filed in the form heretofore prescribed in Order M-243 (revoked).

(2) Persons ordering more than the small order exemption but not more than 27,000 pounds of any one of the three chemicals, for delivery in any calendar month, must furnish their suppliers with the use certificate referred to in paragraph (i) of Order M-300. Persons ordering more than 27,000 pounds in the aggregate of any of the three chemicals must obtain authorization to do so on Form WPB-2945.

(3) The requirements of this schedule do apply, notwithstanding paragraph (r) of Order M-300, to the importation of acetic acid, acetic anhydride, and acetaldehyde into the United States, acceptance of delivery by the consignee, and delivery by such consignee to, and acceptance by, any person who purchased or contracted to purchase the material prior to its importation.

(d) *Suppliers' applications on Form WPB-2947.* No supplier may deliver acetic acid, acetic anhydride or acetaldehyde without first filing Form WPB-2947 for authorization to do so. However, any supplier may, without authorization, deliver, but not export, a total amount not to exceed 5,000 pounds of each of the chemicals, viz. acetic acid (100% basis), acetic anhydride or acetaldehyde, in any calendar month. The filing date is the 20th of the month preceding the proposed delivery month. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-26. The unit of measure is pounds, and in the case of acetic acid, weight is to be calculated on a 100 percent acid basis. File a separate set of forms for each of the three chemicals. In Table I, Column 1, the supplier shall list the customers who have filed Form WPB-2945 with him, and in Column 1-a, the supplier shall specify "WPB-2945". Next in order, the supplier shall list the customers who have filed use certificates with him, and in Column 1-a describe the uses stated in the certificates. If the supplier wishes to make any small order deliveries he shall specify in Column 1 "Aggregate small order deliveries" and leave the space opposite in Column 1-a blank; however, this is not necessary if the supplier does not deliver more than 5,000 pounds of each of the three chemicals in any calendar month.

Do not fill in blanks relating to rolling stock requirements.

A supplier who is not a producer and purchases for resale only, shall only fill in Columns 10, 12 and 13 of Table II. Inventory of the chemicals (acetic acid, acetic anhydride and acetaldehyde) previously allocated for the supplier's own manufacturing use, should not be reported on Form WPB-2947, but should be reported in Table II of Form WPB-2945.

(e) *Customers' applications on Form WPB-2945.* Each person desiring to accept delivery of any of the three chemicals in any calendar month in excess of 27,000 pounds, shall file applications for authorization on Form WPB-2945. The filing date is the 15th of the month preceding the month for which allocation is requested. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-26, one copy (reverse side left blank) to the supplier, and retain

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 29]

AMMONIUM SILICOFLUORID:

§ 3293.1029 *Schedule 29 to General Allocation Order M-300*—(a) *Definitions.* (1) "Ammonium silicofluoride" means the chemical known by that name and also as ammonium fluosilicate. The term includes mixtures of ammonium silicofluoride with other ingredients such as sand casting compounds.

(2) "Metal caster" means a person engaged in the casting of metals such as magnesium and aluminum.

(b) *General provisions.* (1) Ammonium silicofluoride is subject to allocation under General Allocation Order M-300 as an Appendix B material. The initial allocation date is July 1, 1944, and the allocation period is the calendar month.

(2) Metal casters seeking to purchase ammonium silicofluoride or casting compounds containing ammonium silicofluoride must file a certificate with their purchase orders stating that the material is required for "aluminum casting", "magnesium casting", or other specified metal casting. In addition, metal casters must file a one time base period and inventory report on Form WPB-3442 pursuant to paragraph (e).

(3) Consumers seeking to purchase and use ammonium silicofluoride for any purpose other than metal casting are not required to obtain authorization or to file anything under this Schedule, notwithstanding paragraph (x) of Order M-300.

(4) Suppliers seeking to purchase ammonium silicofluoride for resale must file a certificate with their purchase orders. This is required whether the ammonium silicofluoride is bought and resold as such or in mixed form, except that a certificate is not required from a supplier seeking to purchase ammonium silicofluoride, packaged for retail sale and labeled as a moth-proofing compound or laundry sour or laboratory reagent chemical. The supplier's certificate must either state that the ammonium silicofluoride is required "for resale exclusively for non-metal casting purposes" or that it is required "for resale on further authorization".

(5) A supplier (unless he is a producer) is not required to apply on Form WPB-2947 or to obtain specific authorization for sale of ammonium silicofluoride exclusively to consumers other than metal casters (such as laundries or moth-proofing manufacturers) or to suppliers who sell exclusively for non-metal casting purposes, notwithstanding paragraphs (d) and (e) of Order M-300.

(6) A supplier who sells ammonium silicofluoride for metal casting purposes, whether or not he also sells it for other purposes, and each producer is required to file application on Form WPB-2947 pursuant to paragraph (c) for authorization to deliver after July 1, 1944, ammonium silicofluoride or any mixtures containing ammonium silicofluoride.

(7) Authorized deliveries to customers named individually on the supplier's form shall be made in a sequence best suited to the needs of the customers, without regard to preference ratings. Other authorized deliveries shall be made in the sequence determined by War Production Board regulations.

(c) *Suppliers' applications on Form WPB-2947.* Each supplier seeking authorization to use or deliver ammonium silicofluoride wholly or partly for metal casting purposes, and each producer seeking authorization to use or deliver for any purpose, shall file application on Form WPB-2947 (formerly PD-602). List individually all customers whose certified use is for metal casting or for resale on further authorization. All other requests shall be lumped and shall be entered as a total requested for "non-metal casting purposes". The filing date is the 20th day of the month before the proposed delivery month. File separate sets of forms for ammonium silicofluoride as such and in mixtures (specify ammonium silicofluoride content in the grade space). Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-29. The unit of measure is the pound (total weight in case of mixtures). Fill in Table II.

(d) *Customers' certificate of use.* Each metal caster and each direct or indirect supplier of metal casters ordering ammonium silicofluoride shall furnish with or on his purchase order a certified statement of proposed use, in the form prescribed in Appendix D of General Allocation Order M-300. The certified statement should be in the hands of the supplier not later than the 15th day of the month before the requested delivery month. Specify as the proposed use "Aluminum casting", "Magnesium casting" or other specified metal casting, or "Resale on further authorization".

(e) *One time report on use and inventory*—(1) *Who must file.* Each metal caster shall file a one time use and inventory report on Form WPB-3442, on or before the date of his initial filing of a use certificate pursuant to paragraph (d) above. Separate sets of forms shall be prepared for ammonium silicofluoride as such and in the form of mixtures. A caster who purchases ammonium silicofluoride for use in a mixture should file only for the ammonium silicofluoride. Retain one copy and send one certified copy of each set to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-29.

(2) *Heading.* Specify in space (1) ammonium silicofluoride as such or ammonium silicofluoride in mixture (specify ammonium silicofluoride content or suppliers' designation), in space (2) specify "pounds", and in space (3) specify "M-300-29." Fill in the other spaces as indicated.

(3) *Section I.* Fill in Column (a) as indicated and leave Column (b) blank. In the heading of Columns (d), (e), (f) and (g) specify 1st, 2d, 3d and 4th quarters, 1944, respectively. Fill in these columns accordingly, including the bottom line of section I, giving estimates for the 2d, 3d and 4th quarters of 1944.

(4) *Section II.* Leave Columns (a) and (d) blank. In the heading of Column (b), specify April 1, 1944, and fill in accordingly. In the heading of Column (c) specify the first day of the month following the month in which the report is filed and fill in accordingly.

(f) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Communications to War Production Board.* Communications concerning this Schedule shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-29.

[MPR 136, as Amended,[1] Amdt. 117]

MACHINES AND PARTS, AND MACHINERY SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 136, as amended, is amended in the following respects:

1. Section 1390.11 (c) (2) is amended by adding an undesignated paragraph to read as follows:

Notwithstanding the foregoing, the maximum price for a motor grader, crawler tractor, shovel, dragline, crane and backhoe may equal the following percentages of new base price in relation to the year in which the equipment was manufactured:

Year of Manufacture:	*Percentage*
1943	80
1942	75
1941	70
1940	65
1939	60

2. A new § 1390.11 (f) (2) (iv) is added to read as follows:

(iv) To the maximum price of a second-hand motor grader, crawler tractor, shovel, dragline, crane and backhoe, which is sold as "rebuilt-and-guaranteed", and which was purchased solely for the purpose of rebuilding and sale, there may also be added in the manner above provided the actual cost paid by the seller for transportation of the equipment from the point of his acquisition of the equipment to the place where it was rebuilt.

This amendment shall become effective June 14, 1944.

PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES

[MPR 426,[2] Amdt. 32]

FRESH FRUITS AND VEGETABLES FOR TABLE USE, SALES EXCEPT AT RETAIL

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

1. Appendix J is added to section 15, Article III to read as follows:

APPENDIX J—MAXIMUM PRICES FOR CERTAIN DECIDUOUS TREE FRUITS

(a) *Explanation.* This appendix establishes maximum prices for the following deciduous tree fruits:

Sweet cherries (all varieties)
Apricots(all varieties)
Plums (all varieties including fresh prunes, except fresh Italian prunes)
Fresh Italian prunes (all varieties).

It applies to every seller of the listed deciduous tree fruits, including growers, grower-distributors, buyer-distributors, carlot distributors, primary receivers, secondary jobbers, service wholesalers and all other sellers except retailers.

Specifically, the appendix:

(1) Establishes maximum prices f. o. b. shipping point for sales made f. o. b. shipping point, and designates basing points from which to figure maximum prices for sales made on a delivered basis.

(2) Establishes maximum prices for sales direct and through certain named agents by all persons other than retailers.

(3) Establishes maximum prices for sales to retail stores, government procurement agencies and institutional buyers.

Each of the listed deciduous tree fruits is covered by a separate table (see paragraph (d)). Special provisions applicable to any one kind of deciduous tree fruit will be found in footnotes to the applicable table. Provisions applicable to all listed deciduous tree fruits are to be found in the paragraphs following the tables. The maximum mark-ups which may be added to the applicable f. o. b. or delivered maximum price, as the case may be, for certain sales common to all the listed deciduous tree fruits, are set forth in Tables A and B (see paragraph (e)). Table A names the mark-ups for sales by growers through agents and for sales by other primary sellers direct or through agents. Table B names the mark-ups for sales by persons other than primary sellers.

Any sale by a primary seller of deciduous tree fruits shipped by him by mail or express to an ultimate consumer in a lot of five containers or less (not larger than "standard" containers) is exempt from this regulation. However, this exemption does not apply to sales by sellers other than primary sellers.

The Office of Price Administration reserves the right to change any basing point named in this appendix at any time or to establish new or additional basing points without changing the maximum price f. o. b. country shipping point.

(b) *Definitions.* (1) "Standard container" means any container listed in Column 2 of the applicable table in paragraph (d) which is closed and contains a net weight within the weight ranges specified for that container.

(2) "Shipping point" means the place in or near the producing area where the kind of deciduous tree fruit being priced is prepared for shipment and first loaded on cars for rail shipment or on trucks for truck shipment.

Example: Suppose pears are packed at a packing plant at Lakeport, California, and that the nearest point for rail shipment is Yuba City, California, and that the pears must therefore be transported from Lakeport to Yuba City by truck. The country shipping point in this case will be Yuba City, California, and the maximum prices established for pears f. o. b. shipping point will apply at Yuba City. The cost of transportation from Lakeport, California to Yuba City, California, must be borne by the seller. If, however, the pears are destined for a terminal market by truck shipment, for example to Los Angeles, California, the shipping point in such case will be Lakeport, California.

(3) "Primary seller" means the first person including a grower, grower-distributor, buyer-distributor, or growers' cooperative who prepares the particular deciduous tree fruit being priced for shipment and who sells it from a "shipping point" on an f. o. b. or delivered basis. A person who owns and has the fruit prepared for him for shipment from the shipping point is a primary seller.

(4) "Graded and packed" means graded and packed in accordance with the requirements of the applicable State Agricultural Code.

(c) *Weight markings and price calculations.* (1) Before sale, every seller shall clearly mark a net weight on every unmarked container. In the case of a standard container, the seller shall mark a minimum net weight which may be lower, but in no case higher, than the actual weight. In the case of other containers, the seller shall mark the actual net weight on the container. However, marking requirements do not apply to open containers.

The weight requirements provided in this appendix are based on weights existing at the time of shipment from the shipping point, in the case of closed containers, and at the time of sale, in the case of open containers. All weighing and marking shall be done according to the weighing and marking requirements of the applicable State Agricultural Code. (Section 14a(a) does not apply to this appendix.)

(2) Every seller who sells a container upon which a net weight has not theretofore been marked by a prior seller or who sells an open container, shall figure his maximum price on the basis of the actual net weight of the contents. Every seller who sells a container (other than an open container) upon which a net weight has theretofore been marked by a prior seller shall figure his maximum price on the basis of the net weight marked on the container.

Some sellers of standard containers may not wish to weigh each container before marking and selling it. In recognition of this, weight ranges have been provided, for standard containers, within which maximum prices do not vary. However, a seller who sells without weighing all containers takes the risk that the estimated minimum net weight may exceed the actual net weight, which would be a violation of the regulation. Subsequent sellers, however, may rely on the minimum net weight marked on the container and figure their maximum prices on the basis of it.

A seller obtains his maximum price first by determining whether the net weight of the container being priced falls within any of the weight ranges established by the appendix for that type of container. If the net weight falls within an applicable weight range, the maximum price named in the price table for that container is on a container basis and it applies to all weights within that range. On the other hand, if the net weight falls outside the applicable weight ranges, the maximum price is figured by the seller on a straight per-pound basis. (In the latter case, the container is not a "standard container" and the seller will therefore be required to figure a maximum price for it on the basis of actual net weight.)

[2] 8 F.R. 16409, 16294, 16519, 16423, 17372; 9 F.R. 790, 902, 1581, 2008, 2023, 2091, 2493, 4030, 4086, 4434, 4786, 4787, 4877.

*Copies may be obtained from the Office of Price Administration.

(d) *Maximum price tables applicable to individual deciduous tree fruits.* The following tables state maximum prices for certain sales of deciduous tree fruits by all sellers, except sellers at retail. (For other transactions by these sellers see Tables A and B in paragraph (e) and the provisions of paragraphs (f), (g) and (k)).

Except as specified for bulk sales, and "on the tree" sales, the maximum prices named in the following tables include all costs of harvesting, hauling, packing, precooling, loading and inspection, and no additional charge may be made for containers or for any other materials furnished or services rendered.

Although f. o. b. shipping point maximum prices are named only for listed deciduous tree fruits shipped from certain states (see Column 5 of the applicable table in each case), all listed fruits are subject to the maximum prices named in columns 6 and 7 of the following tables, regardless of where produced or shipped.

(f) *Provisions applicable to primary sellers*—(1) *Prohibition against certain payments.* No primary seller shall receive, and no person shall pay to any primary seller, an amount in excess of the applicable maximum price f. o. b. shipping point, if sold f. o. b., or the applicable maximum price for delivered sales, if sold delivered, as the case may be (see Column 5 or 6 of the applicable table in paragraph (d)), regardless of the type of sale or the type of purchaser, and regardless of any existing or future commitment between the buyer and seller except for allowances made to grower-distributors, buyer-distributors, and to growers and primary sellers for sales through certain named agents, and except as provided for shipments of not more than five containers in paragraph (a), and except as provided for sales by growers delivered to the premises of retail stores, institutional buyers and designated depots of government procurement agencies, and except as provided for sales to ultimate consumers.

No person who does not pack and ship the fruit being priced, and who does not regularly operate a packing and shipping plant for that commodity, shall purchase deciduous tree fruits "on the tree" or in bulk at a price, which, after the costs of harvesting, hauling, packing, precooling, and loading have been added, results in a price higher than the maximum f. o. b. shipping point price listed in the applicable table of paragraph (d).

Example: Suppose an intermediate seller or a retailer wishes to buy an unharvested crop of plums from a grower. The amount which he pays the grower for the plums plus the cost of harvesting, hauling, packing, precooling and loading may not exceed the maximum price f. o. b. shipping point for plums in the kind of container in which they are being sold, as set forth in the table for plums in paragraph (d). If the plums are purchased already packed, but not precooled or loaded on cars, the price paid for the packed plums plus the cost of precooling and loading must likewise not exceed the maximum price f. o. b. shipping point for plums in such containers.

(2) *Sales by growers direct and through brokers, commission merchants or terminal auctions.* (i) For direct sales of deciduous tree fruits in any quantity by growers, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (d)).

(ii) For sales of deciduous tree fruits in any quantity by growers through brokers, or sales in carlots or trucklots through commission merchants, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (d)) plus the markup named in Column 4 of Table A in paragraph (e), regardless of the actual charge made by the broker or commission merchant. (The broker or commission merchant may not receive for his services more than the commission or fee allowed under Maximum Price Regulation 165 [2]).

(iii) For sales of deciduous tree fruits in less-than-carlots or less-than-trucklots by growers through commission merchants, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which such commission merchant may charge under Maximum Price Regulation 165) or the applicable markup (for ex car or ex store sales, as the case may be, named in Column 5 or 6 of Table A in paragraph (e)), whichever is lower.

Example: A grower sells less than a carlot of California apricots in Brentwood lugs, each with a minimum net weight of 24 pounds (standard containers), through a commission merchant. Assume that the maximum price for that Brentwood lug of California apricots delivered in Chicago, Illinois, is $3.08 per lug. Assume the commission merchant is selling ex store, and that his actual fee (and his maximum fee under Maximum Price Regulation 165) is 7% of the selling price or 23 cents per Brentwood lug. The maximum mark-up for sales ex store by growers through commission merchants in less-than-carlots named in Column 6 of Table A is 38 cents per Brentwood lug. The maximum price for sales in less-than-carlots by the grower through the commission merchant is therefore $3.08 plus 23 cents, or $3.31 per lug. In this example the 7% charged by the commission merchant, or 23 cents, is less than the 38 cents named in Column 6 of Table A, and therefore is to be used by this particular commission merchant in determining his maximum price.

(iv) For sales of deciduous tree fruits by growers through a terminal auction, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus (1) the markup named in Column 7 of Table A in paragraph (e), or the sum of (i) the markup named in Column 4 of Table A in paragraph (e) and (ii) the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which the auction company may charge under Maximum Price Regulation 165),

[2] 8 F.R. 14990.

whichever is lower, and (2) any unloading charges in the terminal market incurred by the seller.

(v) For sales of deciduous tree fruits by growers delivered directly from the grower's ranch, orchard, or place of business at the shipping point in a truck owned by him (and not furnished, owned or controlled, directly or indirectly, by the buyer) to the premises of institutional buyers, designated depots of government procurement agencies or retail stores where resale is made to ultimate consumers, the maximum price in each case is the price named in Column 7 of the applicable table in paragraph (d).

A sale of deciduous tree fruit, delivered directly from the shipping point in a truck (owned by another grower and transporting the deciduous tree fruit of that grower and the fruit of not more than three other growers), to the premises of institutional buyers, designated depots of government procurement agencies or retail stores where resale is made to ultimate consumers shall be priced as a sale by a grower "in a truck owned by the grower."

(vi) For sales by growers of deciduous tree fruits to ultimate consumers the maximum price in each case is the price named in Column 7 of the applicable table in paragraph (d) multiplied by 1.33. However, such price shall not exceed any applicable community price where established by the Office of Price Administration.

"Broker" means a person other than a grower's sales agent or a commission merchant who, for a commission or fee, represents his principal in the sale of the deciduous tree fruit being priced.

"Commission merchant" means a seller's agent, other than a grower's sales agent or a broker, who receives the kind of deciduous fruit being priced, and who, for a commission or fee, sells it in any quantity in a terminal market or other wholesale receiving point, and who, in the case of less-than-carlot or less-than-trucklot sales, performs the wholesale functions of unloading the fruit from the car or truck in which it is received.

"Commission" or "fee" means the charge made by an agent for services performed in connection with the sale of deciduous tree fruits.

"Terminal auction" means a place in a terminal market, open to any seller and to any buyer who has established credit with the "auction company" or who pays cash, where, on the basis of competitive bidding, the kind of deciduous tree fruit being priced is sold in less-than-carlot or less-than-trucklot quantities by persons operating through a public licensed sales organization known as an "Auction Company", for whose services a fee is charged.

"Ultimate consumer" means a person who buys the kind of deciduous tree fruit being priced for direct consumption. However, as used in this appendix, the term does not include a commercial, industrial, institutional user or government procurement agency.

(3) *Sales by grower-distributors, buyer-distributors, and by any persons (including growers) through growers' sales agents.* (i) For sales of deciduous tree fruits in any quantity by (1) grower-distributors, (2) buyer-distributors or (3) any persons (including growers) through growers' sales agents, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (d)) plus the markup named in Column 8 of Table A in paragraph (e). (The grower's sales agent may not receive for his services more than the fee or commission allowed him under Maximum Price Regulation 165.)

Example: A grower of cherries in Wenatchee, Washington, employs a grower's sales agent to make a delivered sale in Chicago, Illinois. The maximum price is the price named in Column 6 of the applicable table in paragraph (d) plus the markup named in Column 8 of Table A in paragraph (e), even though the lawful charge received for this service by the grower's sales agent is less than the markup named.

"Grower-distributor" means a person (1) who grows the kind of deciduous tree fruit being priced, (2) who assembles, packs or otherwise prepares such fruit for shipment, (3) who sells it on his own behalf and arranges for shipment and ships from shipping point to wholesale receiving point, (4) who sells through brokers or salaried representatives or who sells direct to intermediate sellers on a delivered basis, and (5) who does not make more than 25% (by volume) of his sales to any one person other than to government procurement agencies during the 1944 season. A person who would be a "grower-distributor" but for the fact that he does not meet requirement (5) shall be considered a "grower".

"Buyer-distributor" means a person (1) who purchases the deciduous fruit being priced before it is loaded on cars or trucks, or assembles, packs or otherwise prepares such fruit for shipment and (2) who sells it on his own behalf and (3) who arranges for shipment and ships from shipping point to wholesale receiving point and (4) who sells through brokers or salaried representatives, or who sells direct to intermediate sellers on a delivered basis and (5) who does not make more than 25% (by volume) of his sales to any one person other than to government procurement agencies during the 1944 season. A person who would be a "buyer-distributor" but for the fact that he does not meet requirement (5) shall be priced as if he were a "grower".

"Grower's sales agent" means a person (including a grower's cooperative) other than a broker or commission merchant (1) who receives the deciduous tree fruit being priced from another, (2) who for a commission or fee sells it for the account of such person after the fruit has been graded, packed, or otherwise prepared for shipment and (3) who regularly uses brokers or maintains salaried representatives in terminal markets through whom sales are made.

"Growers' cooperative" means a non-profit agricultural marketing association, regularly marketing the kind of deciduous tree fruit being priced, which is organized under state law and in conformity with the Capper-Volstead Act.

(ii) For sales of deciduous tree fruit by (1) grower-distributors or (2) buyer-distributors or (3) any person (including growers) through growers' sales agents, who in carlot or trucklot sales use brokers, salaried representatives or commission merchants and in less than carlot or trucklot sales use brokers or salaried representatives, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (d)), plus the markup named in Column 9 of Table A in paragraph (e). (The grower's sales agent, the broker, or the commission merchant may not receive for his services more than the fee or commission allowed under MPR 165).

Example: Suppose a grower of cherries in Wenatchee, Washington employs a grower's sales agent to make a delivered sale to a buyer in Boston, Massachusetts. The grower's sales agent uses a broker in making the sale. The maximum price is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus the markup named in Column 9 of Table A in paragraph (e), even though the lawful charges received for services by the grower's sales agent and the broker are less than the markup named.

(iii) For sales of deciduous tree fruits by grower-distributors or buyer-distributors through a terminal auction, or by any persons (including growers) through growers' sales agents who use a terminal auction, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus (1) the markup named in Column 10 of Table A in paragraph (e), or the sum of (i) the markup named in Column 9 of Table A in paragraph (e) and (ii) the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which the auction company may charge under MPR 165), whichever is lower, and (2) any unloading charges in the terminal market incurred by the seller.

(iv) For sales of deciduous tree fruits in less-than-carlots or less-than-trucklots by grower-distributors or buyer-distributors through commission merchants, or by any persons (including growers) through growers' sales agents who use commission merchants, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus the applicable markup (for ex car or ex store sales, as the case may be) named in Columns 11 and 12 of Table A in paragraph (e), or the sum of (1) the markup named in Column 8 of Table A in paragraph (e) and (2) the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which such commission merchant may charge under MPR 165), whichever is lower.

(g) *Maximum prices for sales by persons other than primary sellers*—(1) *Sales in unbroken carlots or trucklots.* If any person other than a primary seller purchases and resells unbroken carlots or trucklots of deciduous tree fruits, the maximum price in each such case shall be the maximum f. o. b. shipping point or delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (d)), plus the markup named in Column 4 of Table B in paragraph (e).

(2) *Sales by primary receivers in less-than-carlots or less-than-trucklots.* (i) For sales by "primary receivers" of deciduous tree fruits ex car, ex truck, ex dock, or ex terminal sales platform, at a terminal market or other wholesale receiving point, the maximum price in each case shall be the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus the markup named in Column 5 of Table B in paragraph (e).

(ii) If a primary receiver breaks a car or truck, unloads the particular deciduous tree fruit being priced into a store or warehouse owned or leased in whole or in part by him, and makes sales ex store or ex warehouse, the maximum price in each case shall be the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus the markup named in Column 6 of Table B in paragraph (e). This price does not include delivery charges. If the primary receiver makes delivery, he may also add the amount which the appropriate regional or district office determines to be applicable for deliveries in these cases (see paragraph (1)).

(iii) If a primary receiver makes a delivered sale to the premises of a purchaser within the free delivery zone, without first unloading the particular deciduous tree fruit being priced into a store or warehouse owned or leased by him, the maximum price shall be the maximum price for ex car, ex truck, ex dock, or ex terminal sales platform sales plus the amount which the appropriate regional or district office determines to be applicable to such sales (see paragraph (1)).

"Primary receiver" means a person who for his own account and profit buys the deciduous tree fruit being priced (1) in unbroken carlots or trucklots from any person or (2) in any quantity from a primary seller selling either direct or through auction or through any agent (except a commission merchant)

in less-than-carlots or less-than-trucklots), for resale in less-than-carlots or less-than-trucklots to persons other than ultimate consumers.

(3) *Sales through terminal auctions.* For sales of deciduous tree fruits through a terminal auction, by persons other than primary sellers, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus (1) the markup named in Column 5 of Table B in paragraph (e) and (2) any unloading charges in the terminal market incurred by the seller.

(4) *Sales by secondary jobbers.* (i) For sales by secondary jobbers of deciduous tree fruits on a "delivered" basis, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus the markup named in Column 7 of Table B in paragraph (e). "Delivered" means delivered to the buyer's premises (in the case of a retailer, delivered to the retail store where resale is made to ultimate consumers) within the free delivery zone.

(ii) For sales by secondary jobbers of deciduous tree fruits not on a "delivered" basis, the maximum price in each case is the maximum price for sales on a "delivered" basis less five cents per container for containers under 50 pounds (gross weight), and ten cents per container for containers 50 pounds or more (gross weight), except as these amounts may be changed by the appropriate regional or district office (see paragraph (1)).

"Secondary jobber" means a person other than a retailer who for his own account and profit purchases the kind of deciduous tree fruit being priced in less-than-carlots or less-than-trucklots from a primary receiver or from any seller through a commission merchant for resale in any quantity.

(5) *Sales by service wholesalers.* (i) For sales by service wholesalers of deciduous tree fruits on a "delivered" basis, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus the markup named in Column 8 of Table B in paragraph (e). "Delivered" means delivered to the buyer's premises (in the case of a retailer, delivered to the retail store where resale is made to ultimate consumers) within the free delivery zone.

(ii) A service wholesaler, when selling the kind of deciduous tree fruit being priced on a delivered basis in quantities of one-half container or less, may add to the maximum delivered price named in Column 6 of the applicable table in paragraph (d) the markup named in Column 9 of Table B in paragraph (e), but only if he has first offered to sell to the buyer on a full-container basis. This paragraph applies only to sales where the seller breaks the original container received by him and sells no more than half of the quantity in that container.

(iii) For sales by service wholesalers of deciduous tree fruits not on a "delivered" basis, the maximum price in each case is the maximum price for sales on a "delivered" basis less five cents per container under 50 pounds (gross weight), and ten cents per container for containers 50 pounds or more (gross weight), except as these amounts may be changed by the appropriate regional or district office (see paragraph (1)).

"Service wholesaler" means a person who maintains a store or warehouse at which the particular deciduous tree fruit being priced is received and stored or warehoused; who maintains at such store or warehouse facilities for cold storage, ripening, sorting, repacking, and other handling of the fruit; who employs salesmen to call on the trade in the city or country points which he services; and who sells the particular deciduous tree fruit being priced to retail stores, government procurement agencies or institutional buyers.

(6) *Sales by secondary jobbers and service wholesalers delivered outside the free delivery zone.* (i) For sales by secondary jobbers or service wholesalers of deciduous tree fruits delivered to the premises of any purchaser located outside of the free delivery zone, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (d) plus the applicable markup named in Columns 7, 8 or 9 of Table B in paragraph (e) plus the cost of transportation beyond the free delivery zone, figured at the lowest common or contract carrier rate for available transportation from the seller's place of business to the premises of the purchaser. The amount added for transportation shall not exceed 25 cents per cwt. for the first 25 miles beyond the free delivery zone, and five cents per cwt. for each successive 25 miles, and the total amount may not exceed 50 cents per cwt., except as these amounts may be changed by the appropriate regional or district office (see paragraph (1)).

(h) *Fractions.* In calculating maximum prices, except for sales to ultimate consumers, all fractions shall be carried to the second decimal place of a cent. Any final calculations of total maximum prices applicable to individual sales resulting in a fraction of one-half cent or more shall be adjusted to the next higher cent, and any fraction below one-half cent shall be adjusted to the next lower cent.

(i) *Sample calculations of maximum prices for sales of a Brentwood lug of apricots (24–26 pounds) f. o. b. (iii) Secondary jobber (Col. 7, Table B) ($3.08 plus 0.83) — 3.91

(iv) Service wholesaler (Col. 8, Table B) ($3.08 plus 0.83) — 3.91

NOTE: The foregoing figures are not to be construed as true ceiling prices in the Chicago market. They are used merely as examples to show the application of the various markups to the base amounts.

(j) *When maximum prices apply.* The applicable maximum price in each case is the maximum price in effect on the date of delivery.

When shipment is by independent carrier and the sale is on an f. o. b. shipping point basis, with the risk of loss on the buyer for any part of the transit prior to physical delivery to him, the date of delivery is the date when the goods are loaded on the carrier ready for shipment. When shipment is by independent carrier and the sale is on a delivered basis, with the risk of loss on the seller for the entire transit prior to physical delivery to the buyer, the date of delivery is the date when the goods are physically delivered by the carrier to the buyer.

(k) *Sales of futures.* In the case of sales of futures, no "advance" (that is, payment prior to delivery) shall, when added to any previous advances, exceed either the maximum price in effect on the date of delivery or the maximum price in effect on the date of the payment.

"Sales of futures" means sales of goods for delivery at a future date beyond the normal time after sale necessary for transit.

(l) *Adjustments by regional and district offices.* The authority delegated by sections 2 (a) and 2 (b) of this regulation to the regional and district offices does not apply to deciduous tree fruit. For deciduous tree fruit the Regional Directors of the Office of Price Administration, and such district officers as they in turn may authorize, are authorized:

(1) To determine the limits of the free delivery zone at any wholesale receiving point located within its jurisdiction and to adjust upwards or downwards the allowances for sales by secondary jobbers and service wholesalers on a non-delivered basis and to adjust upwards or downwards the allowances for transportation beyond the free delivery zones, at the lowest rates for customary and generally available means of transportation.

(2) To determine and publish orders naming the maximum amounts which carlot or trucklot receivers may add to their maximum prices for deliveries made within the free delivery zone at that wholesale receiving point.

(3) To adjust upwards or downwards the maximum markups named for sales by primary sellers through commission merchants in less-than-carlots or less-than-trucklots ex car, ex truck, ex dock, or terminal sales platform. However, any upward adjustment that is made under this paragraph shall not exceed the maximum markup named for sales by a primary seller through a commission merchant in less-than-carlots or less-than-trucklots ex store or ex warehouse.

(4) To adjust upwards or downwards the maximum markups named for sales by primary receivers ex car, ex truck, ex dock, or ex terminal sales platform or through a terminal auction. However, any upward adjustment that is made under this paragraph shall not exceed the maximum markup named for sales by primary receivers ex store or ex warehouse.

(m) *Record keeping and notification requirements.* Every sale by any person to any buyer other than an ultimate consumer shall be accompanied by a notification in writing showing the date of the sale, the names and addresses of the seller and the buyer, an adequate description of the commodity sold, including the quantity, unit of sale and the total price charged. When the total price includes charges for brokerage, commission, freight, trucking, protective services or any other charge or fee recognized by this appendix, the notice shall set forth the nature and amount of each of such charges, except insofar as the giving of such information is inconsistent with state law.

This amendment shall become effective for sweet cherries on June 13, 1944 except for sweet cherries shipped from the shipping point and actually sold befor June 13, 1944 and except for sweet cherries shipped from the shipping point, before June 9, 1944, whether sold or unsold.

This amendment shall become effective for all other deciduous tree fruits on June 13, 1944 as to maximum prices f. o. b. shipping point, and effective as to all other maximum prices as follows:

(1) On June 27, 1944 for all states east of the Missisippi River except Illinois and Wisconsin.

(2) On June 22, 1944 for all other states except California, Oregon and Washington.

(3) On June 17, 1944 for California, Oregon and Washington.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 220,[1] Amdt. 15]

CERTAIN RUBBER COMMODITIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 220 is amended in the following respects:

1. Section 1315.1560b is added to read as follows:

§ 1315.1560b *Application for adjustments*—(a) *Application by a manufacturer that is not based upon a proper decrease of other prices*—(1) *Who may receive an adjustment.* The manufacturer's maximum price for rubber commodities established by this regulation may be adjusted in the case of an essential producer of an essential rubber commodity. An "essential rubber commodity" is one which contributes to the effective prosecution of the war. An "essential producer" is one whose output of rubber commodities cannot be reasonably expected to be replaced at prices lower than the proposed adjusted maximum price. In addition, any person who has entered into or proposes to enter into a war contract (as defined in subparagraph (5)) or a subcontract thereunder, is an essential producer of rubber commodities.

(2) *When adjustment may be granted*—(i) *In general.* The Office of Price Administration, any regional office, or such other offices as may be authorized by order issued by the appropriate regional office, may adjust the maximum price in the case of an essential producer of an essential rubber commodity upon the basis of information submitted by the manufacturer or of other information. It may make that adjustment whenever it finds that the maximum price of a commodity is at such a level that (taking into account the costs thereof, the profits position of the manufacturer, and the nature of his business) production of the commodity is impeded or threatened and that the adjustment would not cause an increase in the cost of living.

(ii) *Factors which may be considered.* (*a*) The following factors are relevant to consideration of whether production of the commodity is impeded or threatened:

(*1*) Whether, and by what amount, the maximum price is below or above (i) the total unit costs less selling and administrative expenses allocable to the internal management of the business, and (ii) the current total unit costs of the commodity.

(*2*) Whether, and by what amount, the manufacturer's current over-all profits, before income and excess profit taxes, are greater or less than his average over-all profits during the normal base period, increased by 7 percent of the additional capital investment contributed entirely by the manufacturer, or its stockholders, since the normal base period. Capital investment will be construed as including accumulated profits.

(*3*) Whether the proposed price is higher than the price prevailing in the industry.

(*4*) Whether the manufacturer's sales of the commodity represent only a very small part of his total sales.

(*5*) Whether the manufacturer previously sold the commodity, or a commodity of the same type, at a price which is below its total unit costs.

(*b*) The following factors are relevant to consideration of whether the adjustment would cause an increase in the cost of living:

(*1*) Whether the rubber commodity, or a commodity in the production of which it is used, is of a type sold to civilian consumers other than industrial consumers.

(*2*) If such is the case, whether the increase in price allowed by adjustment would be absorbed prior to sale to a non-industrial consumer.

(*3*) Whether, if the applicant did not produce the rubber commodity, his output would be replaced by the same or a substitute commodity at prices equal to or higher than the proposed adjusted maximum price.

(3) *How the manufacturer proceeds in applying for an adjustment*—(i) *In general.* An application for adjustment under this paragraph (a) shall be filed in accordance with Revised Procedural Regulation No. 1[2] and shall be made on Form OPA 696: 4057 set out in Appendix B, incorporated as § 1315.1568 of this regulation. Copies of this amendment which contains this form and the instructions for completing it may be obtained from any district, State or regional office of the Office of Price Administration. If the manufacturer's total sales in the calendar year 1942, or in the fiscal year ending in 1942, exceeded $500,000, the application shall be filed with the Office of Price Administration, Washington, D. C. If the manufacturer's total sales during that period did not exceed $500,000, the application shall be filed with the regional office of the Office of Price Administration located in the same region in which the manufacturer's business is located.

(ii) *Application based on proposed wage or salary increase to be authorized by the National War Labor Board.* A manufacturer who believes that the conditions for an adjustment set forth in this paragraph (a) would exist if the National War Labor Board should grant a pending application for wage or salary

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 16689; 9 F.R. 1116.

[2] 7 F.R. 8961; 8 F.R. 3313, 3533, 6173, 11806; 9 F.R. 1594, 3075.

increase, may file an application for adjustment under this paragraph. Applications for adjustment of maximum prices based on wage or salary increases requiring approval of the National War Labor Board must also comply with Supplementary Order No. 28,[3] which requires, among other things, that an application for adjustment in such case be filed within 15 days after an application for a wage or salary adjustment has been filed with the National War Labor Board, or, in a disputed wage proceeding, within 15 days after the employer receives notification that the National War Labor Board has taken jurisdiction of the dispute.

(4) *Prices for deliveries made pending disposition of the application.* A manufacturer who has filed an application under this paragraph (a) may contract or agree that deliveries made during the pendency of the application shall be at a specific price which is higher than the existing maximum price which the manufacturer wants to have adjusted. But no payment in excess of that existing maximum price may be received until the application is finally disposed of, and at that time the price received may not exceed the maximum price as determined by the Office of Price Administration.

A manufacturer who wishes to enter into such an arrangement must specifically state to the buyer the following:

(i) The maximum price for the commodity;

(ii) The fact that an appropriate application for an adjustment of that maximum price has been filed with the Office of Price Administration;

(iii) The fact that the specific price quoted by the manufacturer is subject to the approval of the Office of Price Administration.

(5) *Definitions*—(i) *Normal base period.* The term "normal base period" means the period 1936–1939. If the applicant believes that the period 1936–1939 is not a normal base period for him he shall state why he believes it is not and shall designate another period which he believes is normal and the reasons therefor. If the Office of Price Administration finds either (*a*) that the entire industry of which the applicant is a part was operating during the greater part of the period 1936–1939 at an unusually depressed level or (*b*) that because of unusual conditions prevailing during that period, the applicant's plant was operating at an unusually depressed level in comparison to other plants in the industry, and in addition that some other period prior to January 1, 1941, is a normal base period, such other period may be considered. The mere fact that the rate of production has increased since 1936–1939 will not be deemed evidence that production during that period was at an "unusually depressed level." If the manufacturer was not in business prior to January 1, 1941, he shall state that fact in his application.

(ii) *Over-all profits.* The term "over-all profits" means net profit resulting from the operation of all divisions of the manufacturer, before the creation of any reserves, except ordinary reserves for depreciation and bad debts, and before income and excess profit taxes. Where affiliated interests exist, the term "over-all profits" means the consolidated net profit before the creation of any reserves, except ordinary reserves for depreciation and bad debts, and before income and excess profit taxes.

(iii) *Subcontract.* The term "subcontract" means any purchase, order, or agreement to perform all or any part of the work, or to make or furnish any commodity, required for the performance of another contract or subcontract.

(iv) *Total unit costs.* The term "total unit costs" means the direct unit cost of labor, materials, and subcontracted services, plus a proportion of factory overhead, administrative, and other expenses, based on actual operating experience, properly allocable to the production of the commodity, but does not include provisions for income or excess profit taxes. In evaluating total unit costs, the Office of Price Administration will determine whether the allocation of factory overhead, administrative and other expenses is based on a representative period of continuous, normal production.

(v) *War contract.* The term "war contract" means any contract with the United States, or any agency thereof, or with the government, or any agency thereof, of any country whose defense the President deems vital to the defense of the United States, under the terms of the Lend-Lease Act, for the sale of rubber commodities purchased (*a*) for the ultimate use of the armed forces of the United States or for lend-lease purposes, or (*b*) by any government (or agency thereof) of any country whose defense the President deems vital to the defense of the United States under the terms of the Lend-Lease Act, or (*c*) for use in the production or manufacture of any commodity described in (*a*) or (*b*).

(b) *Application by a manufacturer based upon an appropriate decrease of other prices*—(1) *Who may receive an adjustment under this paragraph.* Adjustments under this paragraph will be granted only in the case of an essential producer of an essential rubber commodity. The meaning of these terms is explained in paragraph (a) (1) of this section.

(2) *When adjustment may be granted.* The Office of Price Administration, any regional office, or such other offices as may be authorized by order issued by the appropriate regional office, may make an adjustment of the maximum price in any case in which the manufacturer agrees to make and (simultaneously with any increase in the maximum price that may be authorized under this paragraph (b)) makes a reduction in the selling price of other commodities which will equal or exceed the total dollar amount of the adjustment granted under this paragraph.

(3) *What an application under this paragraph must show.* An application for price adjustment under this paragraph (b) shall contain information indicating that the manufacturer is an essential producer of an essential rubber commodity and that if the proposed adjustment is granted, the gross dollar amount of sales of the commodities affected by the adjustment will not be greater than it would have been in the absence of the adjustment. In any case where such an adjustment is granted, the Office of Price Administration will require appropriate reports relating to the commodities affected.

(4) *How the manufacturer proceeds in applying for an adjustment.* An application for adjustment under this paragraph (b) shall be filed in accordance with Revised Procedural Regulation No. 1. If the manufacturer's total sales for the calendar year 1942, or for the fiscal year ending in 1942, exceeded $500,000, the application shall be filed with the Office of Price Administration, Washington, D. C. If the manufacturer's total sales during that period did not exceed $500,000, the application shall be filed with the regional office of the Office of Price Administration located in the same region that the applicant's business is located.

(c) *Application by a manufacturer under a combination of both paragraphs (a) and (b).* A manufacturer who desires to apply for an adjustment under paragraph (b) may, at the time he applies under that paragraph, also apply under paragraph (a), if the facts of his case entitle him to do so. In such case, the office considering his application will give the adjustment available under paragraph (a) before applying paragraph (b).

(d) *Procedural Regulation No. 6*[4] *superseded.* No application for adjustment filed under Procedural Regulation No. 6 by a manufacturer after June 15, 1944, with respect to rubber commodities will be granted.

(e) *Adjustments for sales by others than manufacturers.* The maximum price for sales of rubber commodities by persons other than manufacturers may be adjusted in an order issued under this section.

2. Section 1315.1568 is added to read as follows:

[MPR 540]

MAXIMUM PRICES FOR USED PASSENGER AUTOMOBILES

In the judgment of the Price Administrator, prices of used passenger automobiles have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942, as amended. The Price Administrator has ascertained and given due consideration to the prices of used passenger automobiles prevailing between October 1 and 15, 1941, and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has consulted with and has been advised by representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

§ 1360.652 *Maximum prices for used passenger automobiles.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, Maximum Price Regulation 540 (Maximum Prices for Used Passenger Automobiles), which is annexed hereto and made a part hereof, is hereby issued.

SEC. 2. *Prohibition against dealing in used cars at prices above the maximum.*

(a) On and after July 10, 1944, regardless of any contract or other obligation, except as provided in paragraphs (b), (c) and (d).

(1) No person shall sell or deliver any used car at a price higher than the maximum price permitted by this regulation; and

(2) No person, in the course of trade or business, shall buy or receive a used car at a price higher than the maximum price permitted by this regulation, but if he, the purchaser, has received from the seller a written statement that the price charged does not exceed the maximum price, and he has no knowledge to the contrary, he shall be deemed to have complied with this subparagraph (2); and

(3) No person shall agree, offer or attempt to do any of the acts prescribed in subparagraphs (1) and (2) of this section.

(b) A war procurement agency as defined in section 15 (d), or any contracting officer thereof, or any country whose defense the President deems vital to the defense of the United States under the terms of the Lend-Lease Act, or any government agency of such a country, shall not be subject to the provisions of paragraph (a)(2). Moreover, any war procurement agency contracting officer, with respect to purchases he makes, in his official capacity, of used cars, and any paying finance officer of the United States, with respect to payments he may make, in his official capacity, in connection with purchases of used cars, shall be relieved of any and every liability, civil or criminal, imposed by this regulation or by the Emergency Price Control Act of 1942, as amended.

(c) Nothing in this regulation shall prevent the fulfilment of any written contract for the purchase of a used car whether in the nature of a conditional sales agreement, rental contract providing for purchase or other arrangement, entered into before July 10, 1944, and under which the used car has been delivered prior to July 10, 1944.

(d) Where a promissory note covering payment to a dealer or other seller for a car is discounted by a bank, finance company, or other person and the latter takes possession of the used car after default by the maker of the note, the return of

the repossessed used car to the dealer in connection with the recovery from him of the unpaid balance of the note does not constitute a sale, purchase, or transfer subject to the regulation. However, the sale of a repossessed used car by such a holder of "car paper" at public or private sale, except the return of a used car in connection with a contract to repurchase, is subject to the regulation. Notwithstanding the provisions of this paragraph, where a promissory note covering payment to a dealer or other seller for a car is discounted by a bank, finance company, or other person and the latter takes possession of the used car after default by the maker of the note, nothing in this regulation shall prevent the bank, finance company, or other person who discounted the note from selling the used car for an amount not exceeding the unpaid balance on the note, or the applicable maximum price if it is higher, in the case of a used car delivered prior to July 10, 1944, by the dealer to the person making the note.

SEC. 3. *Relation to other regulations*—(a) *In general.* The transactions, persons, and commodities subject to this regulation shall not be subject to any other regulation issued by the Office of Price Administration in so far as they are affected by this regulation, except as provided in paragraphs (b) and (c).

(b) *Exports.* The provisions of this regulation do not apply to the purchase, sale or delivery for export from the Continental United States of a used car. Such a sale, purchase or delivery is covered by the Second Revised Maximum Export Price Regulation.[1]

(c) *Imports.* The provisions of this regulation shall apply to the sale, purchase or delivery of used cars manufactured outside of and imported into the Continental United States only where such used cars are imported from the Dominion of Canada or Mexico. All other sales, purchases or deliveries of imported used cars are subject to the Maximum Import Price Regulation.[2]

SEC. 4. *Less than maximum prices* Prices lower than maximum prices established by this regulation may be charged and paid.

ARTICLE II—MAXIMUM PRICES

SEC. 5. *Maximum prices for used cars*—(a) *For sales during the six months period beginning on July 10, 1944.* To figure the maximum price of a used car sold during the six months period beginning on July 10, 1944, and ending on January 9, 1945, the seller must

(1) Find the base price according to section 6; and

(2) Add to it the allowance in Appendix D for any piece of equipment listed there which is sold attached to the car; and

(3) If the car is a warranted car (as defined in section 7), add $100.00 or, if it is higher, add 25% of the total of the base price and any equipment allowance.

(b) *For sales after the six months period covered by paragraph (a).* For any car sold after the six months period described in paragraph (a) has expired, the seller must figure the maximum price as in paragraph (a), except that he must subtract from it 4% of the total of the base price and the equipment allowance, if any, for each half year after such six months period up to and including the half year containing the day of sale.

Note that this 4% half year depreciation does not apply to the additional amount allowed under paragraph (a) (3) for a warranted car.

SEC. 6. *How to find the base price.* In figuring his maximum price, the seller shall take as his base price a price found by following the directions given below which apply to the used car he is selling, always using, when he does so, the prices given in Appendix B for the particular region in which the car is located at the time of sale. The regions for which prices are listed in Appendix B and the states included in each region are stated in Appendix A.

(a) *For a complete car listed in Appendix B.* Take the base price listed in Appendix B.

(b) *For a complete car not listed in Appendix B.* (1) If its body and chassis were made by different manufacturers: Take the base price in Appendix B for the most comparable car of the same make, model year, body type, passenger capacity, and wheel base.

(2) If its model year is 1937 or later but its make is not listed in Appendix B: Take the base price in Appendix B for the most comparable car as to model year, body type, passenger capacity, and wheel base.

(3) If its model year is 1936 or before and the make is listed in Appendix B: Take the base price in Appendix B for the 1937 year model of the same make, body type, passenger capacity, and wheel base.

(4) If its model year is 1936 or before and the make is not listed in Appendix B: Take the base price in Appendix B for the 1937 model year of the comparable make and model listed in Appendix C, or if a comparable make or model is not listed in Appendix C, take the base price for the 1937 model year car listed in Appendix B which is most comparable as to body type, passenger capacity, and wheel base.

(c) *For a chassis or body.* (1) If a chassis of a car is sold separately, the base price shall be 70% of the base price established by this section for the complete car.

(2) If the body of a car is sold separately, the base price shall be 30% of the base price established by this section for the complete car.

(d) *For a complete car consisting of a used chassis and a new body.* When a seller sells a complete car consisting of a new body attached to a used chassis, the base price shall be

(1) The base price for the used chassis as established by this section, plus

(2) The price of the new body under the applicable maximum price regulation.

SEC. 7. *Warranted used cars.* (a) *Definition.* A warranted used car is one in good operating condition for which the dealer furnishes to the purchaser the following warranty in writing:

DEALER'S WARRANTY

The used car described below is hereby warranted to be in good operating condition, and to remain in such condition under normal use and service for a period of 30 days after delivery, or 1,000 miles, whichever may first occur.

We agree, if said car is delivered during the above period to our place of business, to make with reasonable promptness any repairs or replacements, which may be necessary to its good operating condition in accordance with normal use and service, at a cost to the purchaser named below of not more than 50% of the normal charge for such repairs and replacements. Our normal charge is not in excess of OPA ceilings.

This warranty does not extend to tires, tubes, paint, glass, upholstery, or to any repairs or replacements made necessary by misuse, negligence or accident.

(b) *Additional warranties by dealer.* A dealer may extend to the purchaser warranties in addition to those provided in the warranty stated in paragraph (a), but this shall be done in a warranty separate and in addition to the warranty provided in paragraph (a), and the maximum price established by section 5 shall not be increased thereby.

(c) *Purchaser's legal remedies for dealer's failure to perform obligations of warranty.* The nature of a purchaser's legal remedies for the breach of a dealer's warranty, which are those existing under the applicable state law, is not changed by this regulation.

ARTICLE III—MISCELLANEOUS

SEC. 8. *Federal and state taxes.* There may be added to the maximum price for the sale of any used car the amount of any Federal, State, county or municipal tax upon, or incident to, the particular sale, or delivery or processing in connection with such sale. There may also be added to this maximum price the amount of any Federal, State, county or municipal tax on the use of such car which applies to any unexpired part of the period the tax covers. The amount of such taxes must be included in the certificate of transfer required under section 11. Any taxes paid on the car or extra equipment when new are not to be added to, or included in, the maximum price under this section.

SEC. 9. *Evasion.* It shall be a violation of this regulation to charge a price above the applicable maximum price in connec-

tion with any sale of a used car, either alone or in conjunction with any other consideration even though the price increase appears only indirectly. Specifically, the seller is not permitted to require the purchaser, as a condition of the sale or transfer of the car, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts or services so as to increase the total compensation above the maximum price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging or transferring or trading in any other vehicle or other product or commodity, or where there is an exchange, transfer or trade-in, to require him to accept an allowance for the vehicle, product or commodity exchanged, transferred or traded in which is below its reasonable value. Furthermore, the seller is prohibited from providing for purchase of the used car by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable maximum price at the time the rental contract is entered into, and from making the terms and conditions of sale more onerous to purchasers than they have customarily been except to the extent allowed by this regulation. However, the Office of Price Administration may upon written request grant written permission to any dealer subject to this regulation to change his credit terms, where such change is necessitated by orders issued by, or at the request of, the United States.

SEC. 10. *Label or tag to be attached by dealer to a used car.* Every dealer offering a used car for sale shall attach to it in a conspicuous place a label or tag not smaller than 4" x 8" in the form set forth in Appendix E, on which shall be set forth legibly all of the information called for in Appendix E.

SEC. 11. *Certificate of transfer that must be completed for a sale of a used car.* Every person when he sells or purchases a used car shall complete a certificate of transfer, Appendix F, which may be obtained from dealers or from the local War Price and Rationing Board. When the used car has been sold, the seller shall insert the details of the sale on the certificate and both the seller and purchaser shall certify on the certificate that they have complied with this regulation and that the selling price was not above the maximum established by the regulation. The completed certificate shall be delivered to the purchaser who shall turn it in to his local War Price and Rationing Board. Any misrepresentation in connection with the certificate shall be subject to the penalties provided by the applicable statutes of the United States. This section shall not be applicable to sales when made to dealers.

SEC. 12. *Records and reports.* Every person who sells a used car shall, so long as the Emergency Price Control Act of 1942, as amended, remains in effect, keep and make available for examination by the Office of Price Administration records customarily kept in connection with the sale of a used car, and a copy of the warranty, if any, furnished in accordance with section 7.

SEC. 13. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, proceedings for suspension of licenses, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 14. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 15. *Definitions.* When used in this regulation, the term:

(a) "Person" includes an individual, corporation, partnership, association or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(b) "Dealer" means a person engaged, in whole or in part, in the business of buying, selling, repairing and reconditioning used cars and who maintains a place of business for the display, sale, repairing and reconditioning of such cars. A person who cannot qualify as a dealer because he does not maintain a place for repairing and reconditioning may be approved in writing as a dealer under this regulation by the Office of Price Administration regional office for the region in which his place of business is located, or a district office in that region authorized by such regional office, if he provides adequate evidence to that office that he has established, and is in a financial position to maintain, a working arrangement with a reputable business engaged in the repairing and reconditioning of used cars.

(c) "Sale" includes sales, dispositions, exchanges, and other transfers and contracts and offers to do any of the foregoing. It includes conditional sales and sales under rental contracts, lease agreements or other agreements. It also includes transfers by banks, finance companies, or other persons discounting promissory notes following the taking of possession by such persons upon default of the person making such promissory notes. The term "sale" does not refer to the adjustment of losses made in connection with settlements of claims under policies of insurance against fire, theft, collision, other loss of property or other coverage, even though the right of subrogation may be involved. The terms "sale", "seller", "selling", "purchase", "purchaser" and "purchasing" shall be construed accordingly.

(d) "War procurement agency" includes the War Department, the Department of the Navy, the United States Maritime Commission, the Lend-Lease Section of the Procurement Division of the Treasury Department, and the following subsidiaries of the Reconstruction Finance Corporation: Rubber Reserve Corporation, Metals Reserve Corporation, Defense Plant Corporation, and Defense Supplies Corporation, or any agency of any of the foregoing.

SEC. 16. *Petitions for amendment of general applicability.* Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 [3] issued by the Office of Price Administration.

GRAY IRON CASTINGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1421.166 (g) (1) of Maximum Price Regulation 244 is amended to read as follows:

(g) *Optional method for determining maximum prices for gray iron castings sold pursuant to short orders.* (1) Notwithstanding any provision to the contrary contained in paragraphs (a) to (f) of this section, inclusive, in computing his maximum price for a gray iron casting sold pursuant to a "short order" as defined in the following subparagraph (2), a seller may, if he so chooses, in lieu of determining his maximum price under said paragraphs (a) through (f), whichever is applicable, use as his maximum price for such casting the price computed by multiplying the shipping weight of the casting by 2½ times his average price per pound for gray iron castings in the calendar year of 1942: *Provided,* That (i) if the seller uses the method set forth in this paragraph for establishing the maximum price of a particular casting, he may not thereafter sell or offer to sell an identical casting on another short order at a price higher than the maximum price established by this paragraph, (ii) credit terms, discounts and allowances shall not be more onerous to the purchaser than those customarily used by the seller on February 1, 1942, (iii) transportation charges or allowances shall be made at rates prevailing at the time of delivery and shall be computed in accordance with the seller's customary practice on February 1, 1942, and (iv) if the seller has not already done so, he shall, not later than July 15, 1944, file with the Iron and Steel Branch of the Office of Price Administration, Washington, D. C., a statement of his average price per pound for gray iron castings in the calendar year of 1942. As used in this subparagraph, the term "average price per pound" means the price computed by dividing the seller's total gross sales of gray iron castings, less returns and allowances, by the total weight of gray iron castings shipped.

This amendment shall become effective June 15, 1944.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 418,[1] Amdt. 32]

FRESH FISH AND SEAFOOD

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 418 is amended in the following respects:

1. Sections 6 through 20, inclusive, are redesignated sections 8 through 22, inclusive.

2. Section 1 is amended to read as follows:

Section 1. *What this regulation does.* (a) This regulation fixes maximum prices at which producers and wholesalers may sell fresh fish or seafood. It sets prices for various types of sales by wholesalers to other wholesalers, retail chain store warehouses, government agencies, retailers and purveyors of meals. A wholesaler is a person who buys fresh fish or seafood and resells 20 percent or more of such fresh fish or seafood to persons other than ultimate consumers. A retailer is a person other than a purveyor of meals who buys fresh fish and seafood and resells more than 80 percent of such fish or seafood to ultimate consumers. This regulation also sets prices for sales at retail by such producers and wholesalers as are not covered in Maximum Price Regulation No. 507 and Maximum Price Regulation No. 439.

(b) *Prohibition against selling or buying above maximum prices.* Regardless of any contract or obligation, no person shall sell or deliver, or buy or receive in the course of trade or business any fresh fish or seafood at a price higher than the maximum prices established for it by this regulation; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

However, prices lower than the maximum prices may be charged and paid.

3. Section 2 (a) is amended to read as follows:

(a) *Ex-vessel fish.* Table A (Article IV, section 20 (a) lists the species of fresh fish and seafood (including shellfish and mollusks) for which maximum prices are established by this regulation. The prices are fixed for each month. For each month, there are two columns of prices. The prices in Table A on sales

by producers apply irrespective of the nature of the purchaser and irrespective of whether the fish are sold through an agent of any kind. Nevertheless, a producer who performs the functions of a primary fish shipper wholesaler or other wholesaler at his established place of doing business, and who for the substantial portion of the year prior to July 13, 1943, was engaged in performing the functions of a primary fish shipper wholesaler or other wholesaler at his established place of doing business, may sell at the prices provided in Table B, C, or D depending on the character of the sale. The left-hand pricing column is the producer's maximum price at the port of entry for the designated species in bulk, ex-vessel, i. e., in the customary way in which the particular species is landed at that port, and of the customary size, where size is a factor in the price. War risk insurance premiums may be paid in addition to the listed maximum prices for those species of fish and in those localities where such premiums have customarily been paid by purchasers of the fish.

4. Section 2 (b) is amended to read as follows:

(b) *Boxed fish.* Where a producer, besides bringing fresh fish or seafood to port, also boxes or barrels his fish at or near the port of entry and ships such fish by common carrier or where his sale of such fish involves transportation to the buyer other than local trucking, hauling or handling, his maximum prices shall be the prices listed in the right hand pricing column of Table A for the species and the month involved. Such prices shall include all brokerage, commission, or any other customary selling fees, transportation and any other expenses incurred.

5. Section 3 is amended to read as follows:

SEC. 3. *Primary fish shipper sales.* (a) A primary fish shipper sale is a sale of fresh fish or seafood by a person (herein called a primary fish shipper wholesaler) who buys and receives such fresh fish or seafood from a producer at a port of entry or inland and who sells such fresh fish or seafood boxed, barrelled, packaged or in bulk from his established place of doing business.

(b) *Maximum prices for primary fish shipper sales to wholesalers and chain store warehouses.* The maximum price for a primary fish shipper sale to a wholesaler or chain store warehouse, whether made by the primary fish shipper wholesaler himself or his agent, or any other person acting on behalf of or under control of such primary fish shipper wholesaler or through a branch warehouse, is the price listed in Table B in section 22, plus the appropriate container allowance provided in section 21, plus the transportation allowance in section 9, if the fish or seafood is sold and delivered from a branch warehouse.

(c) *Maximum prices for primary fish shipper sales to retailers or purveyors of meals.* The maximum price for a primary fish shipper sale to a retailer or purveyor of meals, except from a branch warehouse as provided in subparagraph (d), is the price listed in Table C in section 22, plus the appropriate container allowance, if any, provided in section 21, plus the allowance provided in section 6 for a service and delivery sale where such sale is made.

(d) *Branch warehouse sales.* The maximum price for a primary fish shipper sale of fresh fish or seafood (except shrimp, salmon and halibut) to a retailer or purveyor of meals where the sale is negotiated or made at a branch warehouse as herein defined and where the fish or seafood is sold and delivered from the stock of a primary fish shipper wholesaler's branch warehouse which is remote from his main place of doing business, and at which warehouse the primary fish shipper employs two or more full-time employees who are stationed at and engaged in making sales and performing services solely for the primary fish shipper from such warehouse is the price listed in Table D in section 22 plus the allowance provided in section 6 for a service and delivery sale, where such a sale is made, plus the transportation allowance in section 9, plus the appropriate container allowance in section 21. The maximum price for such a sale of shrimp, salmon or halibut is the price listed in Table C in section 22 plus the allowance provided in section 6 for a service and delivery sale, where such a sale is made, plus the transportation allowance in section 9, plus the appropriate container allowance in section 21.

6. Section 4 is amended to read as follows:

SEC. 4. *Port sales.* (a) A port sale of fresh fish or seafood is a sale by a wholesaler which is made at or which involves delivery from any place in the United States or outside the United States within 50 miles from the point where the fish or seafood was landed. A port sale is also a sale which is made at or which involves delivery from a place within a port area with respect to any species and period as established by the Administrator or otherwise established by order in accordance with paragraph (b).

(b) *Regional designation.* Any regional office of the Office of Price Administration or any such other office as may be authorized by the appropriate regional office may by order designate as a port area, for any species and any period, any area within its jurisdiction in which a substantial volume of that species is landed or to which a substantial volume is shipped by producers.

(c) *Port sales to wholesalers and chain store warehouses.* The maximum price for a port sale of fish or seafood other than fillets to a wholesaler or chain store warehouse is the price listed in Table B in section 22 plus the transportation allowance provided in section 9, plus the appropriate container allowance provided in section 21.

7. Section 5 is amended to read as follows:

SEC. 5. *Sales other than primary fish shipper sales by wholesalers*—(a) *To other wholesalers and chain store warehouses.* Except as provided for a port sale of fish or seafood other than fillets and a primary fish shipper sale, the maximum price for a sale to a wholesaler or a chain store warehouse by another wholesaler is the price listed in Table C in section 22 plus the transportation allowance as provided in section 9, plus the appropriate container allowance as provided in section 21.

(b) *To retailers or purveyors of meals.* The maximum price for a sale other than a primary fish shipper sale to a retailer or purveyor of meals by a wholesaler is the price listed in Table D in section 22 plus the transportation allowance in section 9, plus the appropriate container allowance in section 21, plus the addition for service and delivery where such a sale is made, as provided in section 6.

(c) *Sales by a retailer-owned cooperative wholesaler.* (1) A sale by a retailer-owned cooperative wholesaler is a sale by a person which is either a non-profit organization or a corporation of which 51 percent or more of the stock is owned by its retail customers and which generally sells f. o. b. warehouse or delivers to affiliated retail stores.

(2) *Maximum prices for sales by a retailer-owned cooperative wholesaler.* The maximum price for a sale by a retailer-owned cooperative wholesaler is the price listed in Table C in section 22, plus the appropriate container allowance provided in section 21, plus transportation as provided in section 9.

8. Section 6 is added to read as follows:

SEC. 6. *Service and delivery sales.* (a) A service and delivery sale is a sale of fresh fish or seafood to a retailer or purveyor of meals by a person (herein called a service and delivery wholesaler) who delivers such fish or seafood in his own motor truck or wagon or in a motor truck or wagon used solely for his own deliveries from his established place of doing business to the individual retail store or to the place of doing business of the purveyor of meals.

(b) *To retailers.* For a service and delivery sale of any fresh fish or seafood to a retailer by a primary fish shipper wholesaler, his agent or branch warehouse, or for a service and delivery sale of fresh fish or seafood other than fillets by a wholesaler (other than a retailer-owned cooperative wholesaler) who bought such fish or seafood through a port sale, such wholesaler may add 1½ cents per pound to the price as determined in section 3 (b) (based on Table C) or section 5 (b) (based on Table D), whichever is applicable, plus the allowance in section 9 (b) when applicable. For other service and delivery sales to retailers, the wholesaler may add 2½ cents per pound to the price as fixed in section 5 (b) plus transportation allowance in section 9 (b) when applicable.

(c) *To purveyors of meals.* For a service and delivery sale to a purveyor of meals, a wholesaler may add 2½ cents per pound to the price as determined in section 3 (c) (based on Table C) or section 5 (b) (based on Table D), whichever is applicable, plus the allowance in section 9 (b) when applicable.

(1) *Maximum prices for sales of custom dressed fish to purveyors of meals.* For a service and delivery sale of custom dressed fish to a purveyor of meals, a

further addition of 2 cents per pound of custom dressed fish may be added to the applicable service and delivery price for dressed fish. If a price is fixed in the regulation for round fish, but no price is fixed for dressed fish, the applicable dressed fish price for a service and delivery sale shall be deemed to be 40 percent more than the applicable price for a service and delivery sale of round fish. If no price is listed for dressed or round fish, but prices are listed for drawn fish of a species, the applicable dressed fish price for a service and delivery sale shall be deemed to be 25 percent more than the applicable price for a service and delivery sale of drawn fish. For the purposes of this section, "custom dressed" fish shall mean fish with the head, entrails, scales and fins removed. There shall be no charge by the service and delivery wholesaler in supplying such fish to purveyors of meals for any other customary services performed such as slicing, removing collar bone, wrapping, etc.

9. Section 7 is added to read as follows:

SEC. 7. *Maximum prices for retail sales by producers and wholesalers.* This section applies to producers and wholesalers who sell fresh fish or seafood for the most part to persons other than ultimate consumers who are not commercial, industrial or institutional users. The maximum price at which any producer or wholesaler may sell fresh fish or seafood to ultimate consumers who are not commercial, industrial or institutional users shall be the Table B price plus the appropriate mark-up established for Group 3 and 4 stores in Maximum Price Regulation No. 507 (Ceiling Prices of Certain Fresh Fish and Seafood Sold at Retail).

10. Section 8 is amended to read as follows:

SEC. 8. *Special package shipments to outlying country points by wholesalers.* A wholesaler who packs fish or seafood in special containers for shipment to outlying country points to individual retail stores or purveyors of meals may, in addition to the permitted maximum price, add the actual cost of the special containers and the cost of the refrigerant. The added cost must be shown on the invoice to the customer.

11. Section 9 (c) is amended to read as follows:

(c) *Transportation allowance for imported fish.* Any importer or agent of a foreign consignor of fresh fish or seafood may add as a transportation allowance to the appropriate table price the lowest amount determined on the following three bases:

(1) The actual cost of transportation (exclusive of local trucking, hauling and handling charges) from the seller's shipping point to the importer's receiving point;

(2) The actual cost of transportation (exclusive of local trucking, hauling and handling charges) to the importer's receiving point from the point at which the fresh fish or seafood entered the United States or the carload rail rate for fresh fish or seafood from the point in the United States nearest the foreign shipper's shipping point whichever is designated by the seller;

(3) The actual cost of transportation (exclusive of local trucking, hauling and handling charges) to the importer's receiving point from the nearest domestic port from which a substantial volume of that species is shipped. However, with respect to the species listed hereinafter, the cost of transportation shall not exceed the cost for the type of shipment used from the port listed for that species.

Species: Cod, haddock, pollack, hake, cusk, yellowtail, blackback, lemon sole, gray sole, sea dab, rosefish. Port: Boston, Mass.

In determining the transportation allowance common carrier rates shall be used, and the importer may add the allowance only when he records it on an invoice to the customer purchasing the fish or seafood designating which of the three bases he is using. A purchasing wholesaler or subsequent wholesalers of that fish or seafood may pass on such transportation allowance, but only if they in turn record it in an invoice to their customers. This paragraph (c) does not apply to Canadian lake fish listed in Schedules 51–60.

12. Section 10 is amended to read as follows:

SEC. 10. *Imported fresh fish and seafood.* (a) The maximum price at which an importer, including any agent of a foreign shipper, may sell any fresh fish or seafood listed in this regulation shall be the price listed in Tables B, C or D, depending on the type of sale involved plus the appropriate container allowance in section 21, plus the transportation as provided in section 9, plus the appropriate allowance for sales on a service and delivery basis where applicable.

(b) Except as hereinafter provided no person in the course of trade or business shall import (buy, receive or in any manner pay for and bring in, deliver or cause to be brought into or delivered into the continental United States) from Canada any of the species of Canadian lake fish listed below at a price higher than the price established in the table below for such species of Canadian lake fish. The table prices below are f. o. b. the City of Winnipeg in the Province of Manitoba, Canada, and apply to all Canadian lake fish imported from Winnipeg. The maximum importing price for Canadian lake fish which is imported from any point in Canada, other than Winnipeg, shall be an f. o. b. price in line with the f. o. b. Winnipeg price so that the total cost of the fish delivered to the importer's place of business is not greater than it would have been if purchased f. o. b. at Winnipeg. These maximum prices are in American currency and apply to such fish caught or landed in Canada except fish caught in Lake of the Woods and any other body of water east of that lake which is partly in Canada and partly in the State of Minnesota or which constitutes the boundary line between Canada and the State of Minnesota; Lake Superior, Lake Huron, Lake St. Clair, Lake Erie, Lake Ontario and any of the waters connecting these five lakes; and the St. Lawrence River where it constitutes the boundary line between New York State and Canada.

(c) *Halibut.* No person shall buy halibut landed on the Pacific Coast of Canada, which halibut is intended for transshipment in bond into the United States, at a price higher than the Table A price as fixed by footnote 38 when the fish is bought from the producer or Table B as fixed by footnote 38 or 39 when bought from any wholesaler. No producer shall sell any halibut on the Pacific Coast of Canada from a vessel of the United States, which halibut is intended for transshipment in bond to the United States, at a price higher than the applicable Table A price as fixed by footnote 38.

13. Section 15 is amended by redesignating paragraph (d) as paragraph (e) and adding a new paragraph (d) to read as follows:

(d) *Authorization to regional offices to modify invoice provisions.* Any Regional Administrator of the Office of Price Administration may, by order, alter, modify or suspend any of the requirements in paragraph (c) of this section if in his judgment such action is necessary in order that fish may be marketed efficiently within his jurisdiction and is consistent with the effective enforcement of this Maximum Price Regulation No. 418. The Regional Administrator may alter, modify or suspend such requirements with reference to such types of sales and such localities within his jurisdiction as he may designate, but only in the case where the buyer and seller are both located within his jurisdiction. He may make such provisions for posting the items required in paragraph (c) as in his judgment are necessary to prevent the circumvention or evasion of this regulation. The Regional Administrator may issue such order on his own initiative or upon application for adjustment of the requirements in paragraph (c) by any person subject to them. Subpart B of Revised Procedural Regulation No. 1 shall apply to such applications for adjustment.

14. After the definition of "Fillet" in section 20, the following definition is inserted:

"Grade" means any qualification of the name of the fish or seafood listed in the tables in section 22.

15. Section 21 is amended to read as follows:

SEC. 21. *Container allowances.* (a) A wholesaler who sells fresh fish or seafood in a container may add to the appropriate table price the applicable container allowance listed in this section but only if he records it on an invoice to the buyer and only if the container becomes the property of the buyer. In no case may a wholesaler add a container allowance if the container is returned to him.

(b) A wholesaler who processes fresh fish or seafood into steaks, fillets or boned fish and who paid a container allowance permitted in this section may

add to the appropriate table price for the steaks, fillets or boned fish an amount which will enable him to recover the permitted container allowance paid by him when he purchased the fish involved in the processing, but no more than 3 cents per pound.

whose transfers of shoes are made principally to consumers, may transfer to consumers ration-free, shoes which it acquired from another establishment pursuant to subparagraph (1) above. The sale price of each pair so transferred may not exceed a price 25 percent above the price paid by the owner of the establishment for such shoes.

(ii) During the period from July 10, 1944 to July 29, 1944, inclusive, an establishment whose sales of shoes are made principally to consumers may also transfer to consumers ration-free, in each class listed in subparagraph (1) above, the applicable stated percentage (set forth in subparagraph (1)) of the number of pairs of shoes it had in its inventory on September 30, 1943 in such class (as reported on Form R–1701A). However, in computing the number of pairs of shoes in each class that may be transferred ration-free under this subparagraph, an establishment must deduct the number of pairs of shoes in each class that it transferred or transfers to another establishment pursuant to subparagraph (1) above. The sale price of each pair of shoes so transferred may not exceed a price 25 percent below the establishment's regular retail price for the shoes on June 1, 1944.

(iii) Shoes transferred to consumers in accordance with this subparagraph shall be marked with the date of the transfer and the words "Odd Lot", after the sale to the consumer but before they are removed from the establishment. The mark shall be written or stamped on one shoe of each pair with ink, indelible stamp or indelible pencil.

(iv) When such shoes are offered for sale to consumers in any notice or advertisement, they shall be referred to as "OPA Odd Lot Release, Ration-free July 10, 1944 through July 29, 1944."

(3) For the purposes of this paragraph, "price paid" by an establishment means the invoice price paid by the owner of the establishment, plus any separable transportation expense (a charge for freight or postage not included in the invoice price). In determining the price paid, a cash or trade discount need not be deducted from the invoice price.

(4) Each establishment shall keep a record in the manner required by section 2.13 (b) (9) showing the number of pairs of shoes transferred ration-free under this paragraph and the number of pairs of shoes acquired by the establishment ration-free under this paragraph.

This amendment shall become effective June 15, 1944.

On December 17, 1943, a wage agreement was entered into by the United Mine Workers of America and the representatives of the bituminous coal operators who produce the great preponderance of the nation's tonnage. This agreement has been approved by the National War Labor Board and the Director of Economic Stabilization.

I have been advised that the Eastern Gas and Fuel Associates, Koppers Coal Division, has executed a contract covering all of its mines and will put it into effect immediately upon termination of Government possession of its mining properties. Accordingly, I order and direct that the possession by the Government of the mines of Eastern Gas and Fuel Associates, Koppers Coal Division, possession of which has not heretofore been terminated, including any and all real and personal property, franchises, rights, facilities, funds and other assets used in connection with the operation of such mines, be, and it is hereby terminated, and that there be displayed conspicuously at those mining properties copies of a poster to be supplied by the Coal Mines Administration, and reading as follows:

NOTICE: Government possession and control of the coal mines of this mining company have been terminated by order of the Secretary of the Interior.

Eastern Gas and Fuel Associates, Koppers Coal Division, having filed an instrument of agreement and certification, as provided for in section 25 of the regulations for the operation of coal mines under Government control, as amended, (8 F.R. 6655, 10712, 11344, 17339), the appointment of the operating manager for the United States for its mines is terminated in accordance with the provisions of section 40 of the regulations for the operation of coal mines under Government control, as amended (8 F.R. 6655, 10712, 11344, 17339).

Nothing contained herein shall be deemed to preclude the Government from requiring the submission of information relating to operations during the period of Government possession for the purpose of ascertaining the existence and amount of any claims against the United States so that the administration of the provisions of Executive Order No. 9393 (8 F.R. 14877) may be concluded in an orderly manner.

tors who produce the great preponderance of the nation's tonnage. This agreement has been approved by the National War Labor Board and the Director of Economic Stabilization.

I have been advised that these operators and other operators who have executed or are about to execute contracts produce the great preponderance of tonnage in the districts listed in Appendix A, attached hereto, and that they will put the contracts into effect immediately upon termination of Government possession of their mining properties. On the basis of such advice and the available information and evidence, and after consideration of all of the circumstances, I find that Government possession of the coal mining properties located in the districts listed in Appendix A is no longer required, and in accordance with the provisions of Executive Order No. 9393 (8 F.R. 14877) and the War Labor Disputes Act (Pub. No. 89, 78th Cong. 1st Sess.) should be terminated.

CANE SUGAR INDUSTRY IN LOUISIANA

NOTICE OF OPPORTUNITY TO PETITION FOR REVIEW OF DETERMINATION

Notice of opportunity to petition for review of the determination granting the application to include certain operations on sugar cane bagasse within that portion of the cane sugar processing and milling branch of the cane sugar industry in Louisiana which has been granted a partial exemption from the maximum hours provisions of the Fair Labor Standards Act of 1938 pursuant to section 7 (b) (3) of the act.

Whereas an application was filed to include the artificial drying, separating into proper lengths, and grinding of bagasse resulting from the processing of sugar cane into raw sugar, syrup and molasses within that portion of the cane sugar processing and milling branch of the cane sugar industry located in Louisiana which the Administrator determined, on November 18, 1939 (4 F.R. 4615), to be an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder; and

Whereas upon consideration of the facts stated in the said application, the Administrator determined (8 F.R. 15493), pursuant to § 526.5 (b) (ii) of regulations, Part 526, as amended, that a prima facie case had been shown for amending the existing determination granting an exemption under section 7 (b) (3) of the act to that portion of the sugar cane processing and milling branch of the cane sugar industry which is located in Louisiana, to include therein the artificial drying, separating into proper lengths, and grinding of bagasse resulting from the processing of sugar cane into raw sugar, syrup and molasses, in sugar cane processing plants in Louisiana, during the sugar cane processing season; and

Whereas within 15 days following the publication of this preliminary determination the Administrator received an objection and request for hearing; and

Whereas pursuant to §§ 526.5 and 526.6 of the said regulations, the Administrator gave notice of a public hearing to be held in Room 914, the Richards Building, 837 Gravier Street, New Orleans, Louisiana, on January 28, 1944 before Nathan Rubinstein, an authorized representative of the Administrator, who was authorized to receive evidence and hear argument for the purpose of determining:

Whether the artificial drying, separating into proper lengths, and grinding of bagasse resulting from the processing of sugar cane into raw sugar, syrup, and molasses in sugar cane processing plants in Louisiana during the sugar cane processing season shall be included within that portion of the cane sugar processing and milling branch of the cane sugar industry located in Louisiana which has been determined to be an industry of a seasonal nature pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder;

and

Whereas, following such hearing the said representative of the Administrator duly made his findings of fact and determined as follows:

1. Certain sugar cane mills in Louisiana dehydrate bagasse resulting from the grinding of sugar cane in order to make it suitable for use as litter, horticultural humus, and other purposes.

2. In order to produce a satisfactory product, it is necessary to dehydrate the bagasse while it is still "fresh;" that is, immediately after it comes from the cane sugar mill, and before it becomes mouldy or discolored as the result of exposure to the air. "Fresh" bagasse is available for dehydrating only while the cane sugar plants are engaged in the milling of sugar cane.

3. The dehydrating of bagasse in Louisiana takes place during a regularly recurring period of about 3 months each year, concurrently with the processing of sugar cane into raw sugar, syrup, and molasses. The dehydrating activities cease completely at about the same time that the milling of sugar cane ceases, for the reason that fresh bagasse is not available in the remainder of the year. The dehydrating operations do not lengthen the operating season of the sugar cane mills in Louisiana.

4. The dehydrating of bagasse, as carried on at present in Louisiana is a part of, and should be included within, that portion of the sugar cane processing and milling branch of the cane sugar industry located in Louisiana, which the Administrator has determined (4 F.R. 4615) to be an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act and Part 526 of the regulations, as amended.

5. The term "dehydrating of bagasse" as used in this determination includes the following operations when performed on the premises of a sugar cane mill during the sugar cane processing season: chopping or cutting the stalks into sizes suitable for dehydrating; separating the bagasse into proper lengths; drying the bagasse artificially; baling, wrapping and storing the dehydrated bagasse; and any operations necessary and incident to the foregoing.

The application is granted in accordance with the above findings of fact.

Whereas, said findings and determination were duly filed with the Administrator on June 2, 1944 at the National Offices of the Wage and Hour Division, 165 West 46th Street, New York 19, New York, and are available for examination by all interested parties;

Now, therefore, pursuant to the provisions of § 526.7 of the aforesaid regulations, notice is hereby given that any person aggrieved by the said determination may, within 15 days after the date this notice appears in the FEDERAL REGISTER, file a petition with the Administrator at the National Offices of the Wage and Hour Division, requesting that he review the action of the said representative upon the record of the hearing. Such petition shall set forth the grounds upon which the request for review is based. If no petition for review is filed within the 15 days, the findings and determination of the presiding officer shall become final and the exemption shall become effective upon publication of notice to that effect in the FEDERAL REGISTER.

Signed at New York, New York, this 8th day of June 1944.

L. METCALFE WALLING,
Administrator.

2. Having vested the said property as property of nationals of a foreign country designated in Executive Order No. 8389, as amended, upon the assumption that Leopold H. P. Klotz and North American Investing Company, Inc. were acting for and on behalf of an enemy country;

3. Having received thereafter a notice of claim (No. 553) pursuant to General Order No. 4 (7 F.R. 5539) which claim asserted that the claimant, Leopold H. P. Klotz, had a right to the ownership and possession of some or all of the property described in Exhibit A attached hereto;

4. Having received thereafter a notice of claim (No. 554) pursuant to General Order No. 4 (7 F.D. 5539) which claim asserted that the claimant, North American Investing Company, Inc., had a right to the ownership and possession of some or all of the property described in Exhibit A attached hereto;

7. Having been advised of the final determination issued by the Vested Property Claims Committee with respect to said claims that:

(a) The said property vested by Vesting Order No. 3 was owned at the date of vesting by Leopold H. P. Klotz and the North American Investing Company, Inc., as their respective interests may appear,

(b) Leopold H. P. Klotz was at the date of vesting a national of a neutral state and was at that date and is now a resident of the United States,

(c) Leopold H. P. Klotz was not at the date of vesting and is not now and has not been at any intervening time acting for or on behalf of an enemy country (including a designated enemy country within the purview of Executive Order No. 9095, as amended) or a person within any such country, and that the national interest of the United States does not require that he be treated as a national of a designated enemy country.

(d) North American Investing Company, Inc., a Delaware corporation, was not at the date of vesting and is not now and has not been at any intervening time acting for or on behalf of an enemy country (including a designated enemy country within the purview of Executive Order No. 9095, as amended) or a person within any such country, and that the national interest of the United States does not require that it be treated as a national of a designated enemy country, and

10. Determining that the error committed in vesting the said property should be corrected by assigning and conveying the said property to said claimants;

Having made all determinations and taken all action required by law; and

Determining that under the aforesaid circumstances the disposition hereinafter effected is in the interest of and for the benefit of the United States and necessary and appropriate in the national interest.

Now, therefore, the Alien Property Custodian assigns, transfers, and conveys to the claimant, Leopold H. P. Klotz, all the right, title, and interest of the Alien Property Custodian in and to the property described in Exhibit A, Schedule 1, attached hereto, and to the claimant, North American Investing Company, Inc., all the right, title, and interest of the Alien Property Custodian in and to the property described in Exhibit A, Schedule 2, attached hereto.

This divesting order shall not bar any person from the prosecution of any suit at law or in equity against the said claimants to establish any right, title, or interest which such person may have in said property. Nor shall the vesting and divesting by the Custodian be construed to diminish the interest which such person may have had, or to enlarge the interest which the claimants may have had, in said property at the time of vesting.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70–905]

THE PATCHOGUE ELECTRIC LIGHT CO. AND NEW YORK STATE ELECTRIC & GAS CORP.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 8th day of June 1944.

Notice is hereby given that a joint application-declaration, pursuant to the Public Utility Holding Company Act of 1935, has been filed with this Commission by The Patchogue Electric Light Company (Patchogue) and its parent, New York State Electric & Gas Corporation (New York State). Each of these companies is an operating public utility company, New York State being a direct subsidiary, and Patchogue an indirect subsidiary, of NY PA NJ Utilities Company (NY PA NJ), a registered holding company.

All interested persons are referred to said document which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized below:

1. New York State proposes to sell for a base price of $625,000 its entire stock holdings in Patchogue. These holdings, consisting of 1,000 shares of preferred stock, without par value, and 11,000 shares of common stock, without par value, are the total amount of such securities outstanding. (Patchogue has proposed an amendment to its certificate of incorporation which would reclassify the common stock to 6,000 shares. If this reclassification is effected prior to

the consummation of the sale, the purchasers, by the terms of the purchase agreement, will accept the smaller number of shares, all other terms of the contract being unaffected.)

2. New York State is to purchase from Patchogue for $1.00 the 490 shares of common stock of Atlantic Utility Service Corporation (Auscorp) presently owned by Patchogue.

3. New York State is to indemnify the purchasers of the stock of Patchogue against any and all claims which have been or which may be asserted against Patchogue by Auscorp. As at March 31, 1944, Patchogue had on its books a reserve in the amount of $1,948.26 for possible liabilities to Auscorp for services previously rendered to Patchogue.

4. New York State is also to indemnify the purchasers of the stock of Patchogue against any loss, cost, damages or expenses on account of Federal income or excess profits taxes, by way of assessments, deficiencies, penalties, interest or otherwise, for any period or periods prior to closing date, except to the extent of $12,914.22 to be paid by Patchogue to New York State, or its representatives, on or before the date of closing, as Patchogue's allocable portion of the consolidated return for the Associated Gas and Electric Company system for the year 1943.

The proposed purchasers, ten in number, of whom eight reside in Bradford, Pennsylvania, have agreed in the purchase contract that on the date of closing they will cause Patchogue to discharge, by payment in cash, all of its open account indebtedness to New York State and NY PA NJ. As at March 31, 1944, this indebtedness was in the amounts of $60,000, non-interest bearing, payable to New York State, and $165,000, with interest at 6% per annum, payable to NY PA NJ.

The applicants-declarants have designated sections 9, 10, 12 (b), 12 (d), 12 (f) and Rules U-43 and U-45 as being applicable to the proposed transactions.

It appearing to the Commission that it is proper and in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application-declaration, and that said application should not be granted, or said declaration should not become effective, except pursuant to further order of the Commission;

It is hereby ordered, That a hearing be held upon said matters on June 22, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date, the hearing room clerk in room 318 will advise as to the room in which such hearing will be held. At such hearing cause shall be shown why the application-declaration should be granted and should be permitted to become effective. All persons desiring to be heard or wishing to participate otherwise in the proceeding should notify the Commission in the manner provided by Rule XVII of its rules of practice on or before June 20, 1944.

It is further ordered, That Robert P. Reeder, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matters. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at said hearing to the following matters and questions:

1. Whether the consideration to be received for the proposed sale is fair and reasonable;

2. Whether the proposed acquisition by New York State of the common stock of Auscorp complies with the provisions of section 10 of the act;

3. The propriety of the accounting treatment to reflect the proposed transactions on the books of the applicants-declarants;

4. Whether, and to what extent, it is necessary or appropriate in the public interest to impose terms or conditions in regard to the accounts of Patchogue in regard to the proposed transactions;

5. Whether the proposed transactions are in the public interest and in the interest of investors and consumers, and whether, in all other respects, they comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.
